

Where Is A Walk-In On The Spectrum of Light?

Mushiba: The concept of *Walk-In* is discussed by many sources. Ruth Montgomery wrote, years before Waith began speaking, what I think is a clear description of the *Walk-In* phenomena, entitled *Strangers Among Us*.

While Waith has discussed the process of *Walk-Ins*, he usually brings in the Spectrum of Light, as he did in the following excerpt:

Question: “Since there are positive and negative forces, could a *Walk-In* enter for a negative purpose, for disruption and not just for doing good?”

Waith: “*When discussing the Light and dark, an entity who would enter as a Walk-In, whether they are Light or dark, is relative to your own perception of Light and dark and your own point on The Spectrum of Light. Thus, to say that a Walk-In might enter for a negative purpose depends on your own perspective. Just as you would encounter any entity who you consider dark, so too, might a Walk-In be considered of the dark from your perspective ~ and yet, another entity would consider that same Walk-In of the Light because of their own point on The Spectrum of Light.*”

From my perspective, whether an entity is a *Walk-In* is not the issue ~ rather, each of us is somewhere on *The Spectrum of Light*, living our life and learning our lessons. That is what I see with each energy form. And I continually ***Focus on Lightheartedness and the Spreading of Light!***
