

Living The Illusion

Mushiba: What is an Illusion? Dictionaries define it as a misleading image, a deception ~ something that does not exist. Waith consistently speaks about life outside of The Universal Consciousness as being an illusion, so what does he mean?

Question: “You have reminded us, ‘Don't worry as it doesn't exist anyway - it's an illusion.’ Whose illusion is it? Is it individual or collective?”

Waith: *“It is a Collective Consciousness of the earth plane energy vibration of which you are a part. When you manifest on the earth plane, you connect into that particular consciousness, and therefore, become a part of ~ hooked into ~ the illusion.”*

“The earth plane has its own types of illusions ~ other planes have their own types of illusions. When you go onto a particular plane, you connect into it. Through focusing and practice, you can break through that illusion with an inner directness. For example, you see a particular tangible item because the Collective Consciousness tells you that it is there. You can, by altering your state of consciousness, move your hand through that tangible

object, for it is not there. You are not able, however, to do this in the normal consciousness that prevails on the earth plane ~ you must be in an altered state in order to accomplish this.

“This is by design, for the illusions of the earth plane are of a very particular reason to help you in learning your lessons and meeting your tests ~ therefore, illusions are important.”

Living The Illusion is what Waith counsels us to do, and in doing so, we can change our perception of the illusion ~ which we then continue to live in and change ~ and then continue to live in and change... Thus, each of us is Living The Illusion in ways that can be different from the way another individual is Living The Illusion. An example of this concept is the current illusion of a global pandemic. I am Living The Illusion in a way that is different from other people ~ who are Living The Illusion in a way that is different from other people...

As I continue Living The Illusion, I: ***Focus on Lightheartedness and the Spreading of Light!***
