

What's All This About An Antichrist?

Mushiba: The world is reeling from turmoil and all the systems are collapsing ~ social, economic, political, weather. Along with all of this is the continued, and ongoing, discussions about an antichrist. A quick internet search of antichrist reveals that the *concept* of antichrist began in the bible and then took on a life of its own, with that title being given to people from the Pope, to any number of political figures and celebrities.

Of all the descriptions given from my internet search, I think Waith gives the best explanation:

Waith: *“There are many saying a powerful entity will come and destroy, and that this entity will be in the guise of peace. This is the work of the dark, which gives great propaganda about their own abilities and power that they are going to be bringing in, as they call it, the antichrist, which is simply its own definition of darkness at a high level.*

“The dark is short term in its ability to project Light. It needs only to be challenged by simply saying, “I challenge you.” There is enough of the Light on the earth plane who know of this challenge, so that if any were to come and say, “We project ourselves as the Light and we are the Savior,” they would be challenged immediately. The Light is able to withstand any challenge ~ the dark is not. However, many entities are fearing this

darkness so much that they will believe anything that they are told and will not bring the Light from within themselves out to challenge the dark.

“It is important that you hold onto what you believe to be your truth ~ your own Light ~ and let it then shed itself onto those around you as an influence so that it will affect others, and the ripple effect will occur.”

The antichrist is not a concrete person ~ rather, it is an analogy for the dark. With that in mind, we all need to ***Focus on Lightheartedness and the Spreading of Light!***
