

# Send Light ~ Be Thankful for Prosperity

**Mushiba:** (11.22.2020) As we approach the American day of national Thanksgiving, I reflect on the Prosperity that I have ~ Prosperity of Spirit ~ and feel blessed with the many, many bright lights in my life, in all the different encasements. I believe that Prosperity is not about how much money a person has ~ instead, Prosperity serves a higher calling. As Waith said during his class, *Call To Be Of Service:*

**Waith:** *“Take the focus off money. Money comes as a result of a spiritual mission of Being Of Service. Place money into the arena of Prosperity for Prosperity is the umbrella and money is only one particular tool of Prosperity.”*

If we have gratitude for the intangible as well as the tangible, that gratitude will be returned manifold from The Universe. Living a life that is focused on Prosperity ~ and not money ~ allows us to recognize and acknowledge the many facets that enrich our lives and brings us riches ~ Our health (mentally and physically) ~ Our relationships (both within Self and with Others) ~ Our increased strength within Self ~ Our learning to truly live a life of honesty and integrity.

Too often, we focus on the issues, struggles, challenges and blockages in our lives and forget the Joy that comes from the learning of our lessons and the increased Light that comes to us from that learning. We cannot learn lessons without Others, and that is our Prosperity ~ that we have Others, regardless of the role they play in this particular incarnation.
