

# Hide and Seek with Self

**Mushiba:** Our Higher Self is only one dimension of Self and not the only one from which we can gain insight. As we live our life ~ moment by moment ~ we are connecting with some part of Self. It is the experience we are having that connects Self to Self.

As Waith counsels in *Playtime on the Earth Plane:*

**Waith:** *"Relax about thinking that what you need to do will be accomplished if only you connect with your Higher Self. Rather than trying to force something to be the way you think it needs to be, allow the events to flow with you ~ and laugh."*

The more we might try to find some elusive dimension of Self, the more that dimension may play *Hide and Seek with Self*. Thus, if you are unable to find a dimension of Self, laugh and say, "Come out, come out, wherever you are!"
