

Things To Learn

Mushiba: People have said to me that this life is their last on the earth plane and so they have nothing left to learn. I chuckle because I think, “Then why are you still here if you have nothing more to learn?” Some people like to project that they are *above others* in their awarenesses and that they are here to *Save Others*. Yikes! Save me from those who would want to save me!

Early in his counsel, Waith said:

Waith: *“Even I have Things To Learn. Remember, that until an entity has become One with The Universal Consciousness, there will be Things To Learn. So, do not feel that you are below or not up to par with someone else because everyone has Things To Learn ~ no one is exempt from it.”*

I know, from personal experience, how easy it is to think that if this life is my last on the earth plane, then I am good to go! At the end of Atlantis ten thousand years ago, when it could have, potentially, been my last life on the Plane, my behavior during the last few moments changed my journey. As you can see, I am still here and still have *Things To Learn!*

We can take comfort in knowing that Waith still has *Things To Learn* ~ and does not hesitate to tell us. Now, let the learning continue and continue...
