

Self's Ability To Program Others

Mushiba: A characteristic of Waith is that in answering what appears to be an innocuous question, he ends it with a zinger. In the following exchange, Waith was asked about the ability of humans to program crystals:

Question: “When the power of crystals is misused, usually they have been programmed by humans. Does the crystal, on some level, give permission and therefore, do they also progress or regress by the use of their power?”

Waith: *“Crystals have a Spectrum of Light, as does The Human Kingdom, and crystals, just as humans, are somewhere within that Spectrum. Just as humans are influenced by the darkness and negativity, so too, are crystals. And, just as humans, at some level ~ be it conscious or Soul ~ give permission or accept that programming, so too, do crystals. Yes, there is regression, just as for humans, if certain activities occur that entail misuse.*

“While humans are able to program crystals, understand that there are other kingdoms, of which humans are not aware, that are able to program humans.”

Well, there it is! So, would you take the red pill or the blue pill? The above statement by Waith occurred during his Public Session on **August 6, 1989**. The **Matrix** was filmed in 1999. Prelude? Prophecy? Coincidence? An Intriguing thought! And while reviewing the message given by Waith and in the Matrix, remember to **Focus on Lightheartedness and the Spreading of Light!**
