

# Send Light

**Mushiba:** *Send Light* has been the focus of my *Reflections* during the past few weeks. I have been asked if it is our responsibility to *Send Light*. In other words, do we have to *Send Light* to others? Here is Waith's response:

**Waith:** *"No matter where you go, my loved ones ~ no matter what environment you find yourselves in ~ it is up to you to bring in the Light for Self within that environment. It is not your responsibility to bring the Light into an environment for another."*

*"When you bring in the Light for Self, then it automatically will flow out of Self ~ and others may or may not respond to it. You do not have to be thinking, 'I have to bring Light to this environment."*

*"The Light of Self, when generated, flows out. Yes, you can concretely say, 'I send Light.' However, you do not have to work at it ~ unless you are there, specifically, to bring Light into an environment."*

During the past several months I have had meetings online and in person. Some of those meetings needed some lightheartedness. Did I *Send Light* or not? Yes and No. Some people asked me to *Send Light* to the meeting and other meetings I was not asked. How did I know? Easy ~ I was asked. A key component to *Send Light* is to be asked.
