Send Light ~ The Light Always Wins!

Mushiba, (11.01.2020): Here we are, two days from a major clash between the Light and the dark. One of the reasons that I have been focusing on the topic of Send Light has been in preparation for this coming day ~ and, the days after. I continue to remember a simple sentence Waith said years ago that helps me keep my perspective:

Waith: "On the earth plane, currently, there is much distress and negativity that seems to envelop the world. Many feel that the Light is not there and feel sometimes dragged down by the events of the world as well as the events of their own life.

"This is not the case. The Light is winning! The Light Always Wins! That is one of our famous statements. The Light Always Wins! And, the only way that you can continue to absorb that positive energy is to keep saying that The Light Always Wins!

"The moment that you begin to focus on the darkness, it will descend upon you and consume you. Say it now, The Light Always Wins!"
