

# Send Light

**Mushiba(12.13.2020):** I believe that the vaccine now being given to the world is a concrete symbol of The Light. I have a sense of Lightheartedness. Once again, here is another excerpt from Waith about manifesting Lightheartedness:

**Waith:** *“How you manifest your Lightheartedness is something you have to find so you can let go of the power that seriousness has over you. Being serious can overpower and you lose the Lightheartedness because you are so serious. Allow the power that serious has over you to bring in the Lightheartedness. Be joy filled and find something external to Self that can begin to help you to become Lighthearted within.”*

I like the idea of using the “power of serious” as a way to bring in the Lightheartedness. The Light is winning ~ I Believe!
