Inquiry About Waith on Confidentiality

(August 06, 1987)

I wonder as a rule, do you want to say something about confidentiality?

There is nothing that I am saying to you that needs to be kept secret. What I say to you, if you choose not to tell somebody, is your own choice. What I say to you in a private session is private, even though it is taped. It is not for general dissemination unless you so give permission.

These group meetings ~ these open meetings ~ are of the express purpose eventually of disseminating information to the masses. And those who attend these meetings will serve as carriers of the information ~ as one form of dissemination. There will be other forms of course. You are free to tell whomever. And anyone who wants to attend is invited to do so. Meetings will be held. I will be here at the designated time. Promptly at the designated time, I will begin, and whoever is here is here, and whatever you want to give out to those who you know is entirely up to your feelings of comfort ~ comfort level ~ comfort zone. If you care to bring your own recording device, that is acceptable, and you can do that. And eventually we will have a way ~ a system ~ of transcribing the tapes so that it will be in written form. These readings will be available to anyone who wants them. So, rest assured and feel comfortable in whatever behavior you choose.

As We Meet Here In A Group, Do We Also Meet In Other Dimensions As A Group?

(August 09, 1989)

Yes. Many of you meet at the spirit level who come here to meet at the physical level. You have done this before you even came here. You will do this as you continue, and many of you when you come into this environment recognize us all. It is a reuniting. We have observed such a beautiful reuniting of energies who have been on the earth plane and not been with each other until coming here and of course it is no accident that you meet here. You reunite, and for many of you, you have the ability to leave your bodies very easily and travel and you do this with each other. You decided before coming into this incarnation that you would be a part of that which is occurring now, for you were told by Mushiba and I that this would be occurring. So, you simply waited for the time and you agreed together that you would do this and thus it happens. Do you recognize this happening to you, my son?

In dreams, projecting forward, projecting backwards, but holding onto the conscious recollection is becoming easier, but it is still difficult.

Yes. This is done for very specific reasons of course. For if you were to remember all that would occur when you are not in the physical body then you would not come back.

I want to stay where I am.

Yes. And so, your soul shuts it down, you see. It shuts down the memory, but allows a certain amount to remain so that it is almost like a teaser, you see. And it would become very difficult to really accomplish that which you need to do in this manifestation if all you did was to remember and stay in touch with the spirit at that level rather than the attunement that is so necessary to have between the earth plane manifestation and the Soul's manifestation.

**Someone Asks A Question If A Particular Group Could Come To The Public Sessions
(March 14, 1989)**

My dear, we would object to no one, ever, coming here. Realize this. There are no barriers at all. This is a public meeting. We will speak of Universal Laws and spiritual issues, and anyone who chooses to listen is welcome, even those who would be skeptical we would welcome. We welcome anyone, indeed. And the community, Terra Lux, as we have said earlier must also welcome with open arms and not be judgemental of anyone who might come. Use us as the role model. We object to no one. Why should any of you?

**The Community Of Terra Lux Is A Warrior Community ~ Giving Light To The Dark
April 04, 1989)**

We are going to give you some information during this session that is primarily for the record, so that it will be known by all who will read the transcripts and who will need to have this information, about a part of the characteristic of Terra Lux Community.

The Geographical Pivotal Points ~ Are Also The Points Of Defense For All On The Plane

It is known now, officially, that there are twelve pivotal points on the earth plane, and that those twelve pivotal points are going to change when The Shift occurs, and that this geographic area in which you all find yourselves is a pivotal point, one of the twelve, and that Mushiba has been charged with the responsibility of constructing the new structures as one of the twelve. That is on record.

What needs to be understood is that throughout eternity, and the history of the earth plane, as the pivotal points have been established, these pivotal points are also the points of defense for all on the plane. This means that each pivotal point that has its community and know that there are eleven other major communities like this that are evolving, some at a more advanced stage of development than Terra Lux, that they are charged with protection of all the energies.

There is, therefore, an emphasis in the information that is given out through our source, to those who are in this community and those who would read the transcripts, of defense against the darkness and ways to protect, and that many now who come into the community to be a part of

it, in whatever way they choose, be it of a significant involvement or of a lesser involvement, whatever they choose, there will be an orientation toward warrior. It is why (Name given) has been sent in, The Warrior.

You are all who are gathered here as well as those who are not, taking upon yourselves the lesson willingly to learn defense against the dark. That is why there is so much attack that occurs, for those of the communities of the pivotal points will be charged with the responsibility at the time of The Shifting to aid in the entities who must leave the plane and in the attacks that will occur from the darkness to keep those entities on the plane.

You are all, also, learning to defend at spirit level which, ultimately, is far more critical and important, and you are learning how to use the instruments of Light and love to defend, and you are all learning in your own ways how to help each other to defend and protect each other as well as yourselves, and that as the community grows and as the mission begins to unfold even more, you will be fully prepared to take on those kinds of defenses that will be necessary, for the building of one of the pivotal structures indicates the highest of energy, twelve highest of energy points on the plane.

The Mission Of The Darkness Is To Destroy Terra Lux, A Major Pivotal Point

This Terra Lux Community, therefore, will be very susceptible to those from the dark who would attempt to destroy the work, who would, as their mission, attempt to destroy one of the pivotal points. If they were able to do that, they would then succeed, in their minds, in the destroying the entire energy field of the earth plane, you see. We talk about very major battles that occur here, and that at the time of cleansing they are at their highest, and that certain energies, groups of entities such as those who form in the community surrounding the pivotal points, are those who willingly and anxiously come in to learn protection, for protection of Self and each other.

Being able to defend against the darkness is truly a gift and truly an ability, and in defending against the darkness there is the learning of helping the darkness to come into the Light, to help by sending love as much as the dark would rebel against the Light and would, in fact, be repelled by it. They begin to see, these entities of dark, how powerful the Light is, for the darkness does not have the same abilities to unite as those of the Light do.

Those of the Light have love as their basic lesson, if you will. We put it into those terms, and those of you of the Light use the weapon of love and you unite in this effort and this serves as an example to the darkness, for they do not have this type of weapon to defend themselves against the Light and to form in unity. They have other types of instruments that they use. They use anger, for example, to feed upon. However, as many of you realize and will come to realize, that as soon as you feel these dark instruments at work, you are able to call so quickly upon each other and yourself with Light and love to diffuse, and their work is not accomplished. We will be discussing, at future sessions, more about the responsibilities of the community, for this will be a very large community ~ and we will not give you numbers.

And that there will, of course, be many who come and go and may not be what you would call a permanent part of the community. However, there will be a very significantly large number who will be here looking to the community for protection, guidance, enlightenment and safety at the time of The Shift, as well as before in preparation. And if an individual chooses to come just once to any session that we have, or not even to come to hear us directly but would read one of the transcripts, and if all they read is one, and that guides them in some way, then the mission is accomplished.

And the inner workings of the community core have begun and will expand as earth plane years are measured, two, and by the end of this time frame, there will be a change in much that you now know, the shapings of the community and the shelters and all of that, that we know many of you are so curious about, beginning to build and get all the supplies in and everything going. As we have said, in due time as that is necessary, and that the shelters actually are already begun.

And thus, when you are under attack, when you feel the negativity around you, look at this as the challenge that you are part of a defense community. You are part of The Warriors. And that there will be many who will look for the protection, who, at this time, do not feel that they want to acknowledge darkness, for many feel that by acknowledging darkness they will allow its existence. By not acknowledging darkness, it does not negate existence, and that it is best to understand the darkness so that there can then be the protection and the gradual evolutionary process of helping those in the darkness to move closer to the Light. That is the goal.

The goal is to help all to return to Oneness, and those of the darkness are also in that same mode. They have hidden it. They have put a block around themselves for reasons that become very complex. And therefore, every entity, regardless of its point on The Spectrum of Light and dark, is attempting to return to the One, and by protecting you are aiding, for each time you protect, you send out Light in order to do this and you send out love in order to do this, and ever so much it influences in some areas, and ever so little it will influence, but nonetheless, it will influence the darkness. And if they see for what you would call a split-second, the Light, then that has helped.

**The Community Of Terra Lux Is Not A Privileged Group, Exempt From Difficult Situations
(October 10, 1989)**

It is always relatively easy to say it is a lesson, but I was always under the impression that the community is already a selected group of people who are strong enough to ~

Ah, be very, very ~ be very, very careful in what you say, my dear one, when you say selected. There is no one any better than anyone else. And to say that anyone is selected, is therefore to say they are immune from anything and that is not the case. Those in the Community of Terra Lux take on a very difficult incarnation and it is their choice as to whether they will continue as

time progresses. There will be continual testing of their abilities to maintain themselves as a warrior within a community. There is no selection, per se. No one is selected.

You earn your way within the community by proving that you have learned a lesson that soul has taken on and that The Universal Consciousness presents so that strength and growth occurs. If one were to take on the attitude of being privileged, then there would be no growth, and there would be this looking down upon those who were not selected. We of Waith and Company from the beginning have stated that there will be no idolization. There will be no privilege. All are One. And each is of the other. And if there is not that attitude, then you will simply not be a part of The Warrior Community, and thus it is that you will be given tests on a very regular basis to determine if you are indeed still worthy of being a part of the mission. There is no privilege.

You refer to The Warrior Community. However, I always determined our mission as peaceful.

Indeed, there does appear to be the contradiction, but if you were to read through the transcripts from several sessions you would understand that a warrior, as defined at The Universal Consciousness level, is a mission of peace. It is only as defined in the illusion on the plane now, that a warrior has the negative definition. Peace is the mission, and warrior indicates, from The Universal Consciousness, the effort to infuse Light into the darkness and to assist those who would need protection from the dark forces to enable, in a peaceful manner, the protection that would be needed.

We have given a significant number of protection techniques, the sending of the Light. That is the so-called weapon that The Warriors use, and if you would refer back to the transcripts in which each of those techniques have been presented, you will understand that they are the sending of the Light and not a physical fighting, for all protection techniques have as their inherent base peacefulness and Unconditional Love.

Out of curiosity, I visited this crystal shop that negatively programmed our crystals. I could not detect anything unusual or seemingly negative. Does that mean I am unable to identify darkness when it is around me?

No, it is not the case. This crystal shop will remain a tool of the darkness until it has severed its relationships with the entity (Name given). What occurred was that you were given the illusion of safety.

Now, did I give the illusion to myself, did my Higher Self ~

No. It was given to you from the darkness.

So, I was trying to be tricked.

That is correct. They work that way. They are quite powerful and do not forget it. However, we are here as the opposite end of The Spectrum, and we will continue to give you protection techniques, and we will continue to give to you techniques that will help you to break through an illusion, to in fact understand that an illusion is being presented to you from the darkness. This will come. These are advanced techniques and will be given out as they are ready to be utilized.

**It Is Important To Not Withdraw From The Group, While Feeling Overwhelmed By Situations
(June 12, 1990)**

We are most pleased to have been able to be with you in the vibration and the sharing of the Light, and we would remind you that as you begin to feel overwhelmed by certain situations, you would be careful about withdrawing from the other members of the community in which you find yourselves a part of, for it is the time that you need the support and the love of the community members more than ever, and by withdrawing, you allow any of the dark that are attempting to pull you away to succeed.

Remember that the purpose of a community of loving entities, regardless of how structured or unstructured that community is, is to provide love and support to each other and to help each other through times that are difficult. It is much too easy to be there in times of good, and ease, and comfort. It is not as easy when you find yourself overwhelmed by a particular issue. This is what community means. This is your way of being a microcosm of The Universal Consciousness, for all energy is One and all energy therefore is connected. Remember this and love and support each other rather than talk among yourselves about another who may be having difficulties. Go to that entity's support and help.

**Are Terra Lux Community Members Given Additional Opportunities For Spiritual Growth?
(June 19, 1990)**

Oh, indeed. It ~ the Community of Terra Lux is charged with a spiritual warrior mission, in that those who would seek assistance in their spiritual path would find a comfort, and solace, and assistance, and understanding, and as much nonjudgement as is possible on the earth plane. And in this capacity, however, as a community member, each is susceptible to attacks from the darkness, be it in spirit or incarnated, for the dark always tries to destroy the Light. However, the Light eventually overcomes the dark, but the battle that goes on between the Light and the dark is one in which The Universe has set up as necessary for the growth of all.

**Describe What Makes Terra Lux The Difference From A Cult
(July 24, 1990)**

Well, you know the definition of cult, as it is currently on the earth plane, has a negativity about it, meaning that entities would gather and be controlled by a leader and that they would give up their worldly possessions. They would give their money, as you would call it, to this group, and

that there is mind control evident. Given that definition, the Community of Terra Lux and the groupings of entities certainly would not qualify as a cult, for we have been most clear from the beginning that, for example, there would be no money charged for our disseminated information.

What occurs with groupings of entities ~ and understand that by the earth plane definition a cult could be any two or more entities who gather on a regular basis to share common beliefs, you see. You all gather out of common interests. You are searching for spiritual growth and awareness. However, as we had mentioned earlier, entry into our grouping has no requirements ~ and the purpose of Mushiba's twin flame, Abalma, is to help in the understanding at the illusionary level that physical and spiritual need to work together, and that one does not need to be, let us say, a vegetarian in order to attain spiritual growth.

We are here to help dispel, in fact, the attitude that the only way to gain spiritually is to behave in very specific ways, that if you have any earth addictions ~ chocolate, caffeine, oh, all of these things that are a part of the earth plane experience ~ that if you have these that there must be something wrong with you and you cannot grow spiritually. You see, this is ridiculous, as you would say on the plane. And, thus, the Community of Terra Lux does not make it a requirement that you adhere to certain principles, certain tenets, if you will, certain requirements. It is not a cult, then, for we do not require you to behave in a certain way in order to be a part of the group, nor do you need to believe in a certain way. You can challenge anything that we give you for information, and we will not throw you away and say, "How dare you challenge us?" It is important to question, for in the questioning you gain in your awarenesses. Nor is anyone in the community going to win the lottery. 😊

And, thus, a part of the mission is to show that by combining spiritual with the physical, the material needs that are required by an entity can be achieved through a common goal, and through working together as a community to achieve what is needed for Self as well as the community, and that it is in this spirit of cooperation that the growth will occur. And thus, if anyone were to ask you if you were a member of a cult, you would, as has done so often, say "Well, look at my bank account. I have not emptied it out yet." This does seem to be one of the issues of the subject of cult as it is known on the earth plane.

Waith Talks About Differences In The Holiday Season ~ All-Encompassing Love And Joy (December 04, 1990)

I am very concerned about this community's unwillingness to lift up Jesus of Nazareth during the holiday party. I was wondering if you would comment on that.

There is not, my dear, the elimination of that but rather the encompassing of all that relates to Amelius. Amelius is the entity who leads this particular kingdom of which we are all a part. He is one of the five leaders that head up The Universe, and they each have their own kingdom, you see. Amelius is the energy that encompasses all of those entities who have entered onto the earth

plane and formed the great religions of the earth plane, including the ones of which you are all familiar with now. And as we enter into the ending of a particular year on the earth plane, it is a time traditionally for major religions to honor that which is the energy generically known as The Creator. Now, Jesus was one entity that sprung from the Amelius energy form. The founders of Christi ~

Excuse me, Waith, I was wondering if you could tell me what other religions celebrate at the end of the year, as you just said. I have been confused about that, before you go on about Jesus.

Yes, indeed. We are not specifically saying religions that celebrate, but rather, the spirit of the celebration of The Creative Force and that the spirit of celebration at this time at the closing of each year, as a frame of reference for all of you, is peace and love and joy, and that theme comes from all those that are religions, or all that seek a spiritual path.

And we have not indicated that the celebration that Community of Terra Lux will now have will negate that who was Jesus, but rather, we encompass all who would want to have the religion of which they feel very comfortable with to be included as part of the celebration, you see. There is no exclusion. There is no denial, for, you see. The purpose is the seeking of the spirituality, and each entity has its frame of reference from its time of origin on the plane in this incarnation. And some entities will feel very excluded if they are not allowed to bring into the celebration that which is what they consider their heritage.

And thus, the Community of Terra Lux is an open community with no membership requirements, simply that you would come in with that which you believe as your base, and then to expand upon that in your own spiritual growth without the imposition of any dogma that comes from other beliefs, you see. This is not a situation where imposition of beliefs but rather the seeking of one's own truth in harmony with the seekings of truth from other entities.

That means we can sing Christmas carols.

Oh, but of course.

But it presents Christianity. So, we were confused. Perhaps I brought on this confusion.

Well, my love, there are other songs also that can be sung, you see. This is why Limera in her announcements asked for suggestions from others, for many are unfamiliar with the songs, the harmonies, that come from other frames of reference that would be most welcomed as part of the Christmas songs. Ah, there is much to be shared, you see. It is a way of extending out, and bringing in, and therefore making fuller the heritages of all who would want to share. You see, for example, the American Indian is a very, very powerful spiritual heritage, and they have much in the way of vibration through song that can be shared in harmony, and the celebration through

song and merriment and laughter. This is the goal, you see, and as is always we are with you in spirit during these celebrations.

Waith Announces Upcoming Vibrational Changes Within Mushiba And Terra Lux (May 16, 1995)

It is a most pleasing vibration in which we enter, and there appears to be a sense of calmness in most of your energies. That is good. We have on occasion, during the time of speaking through Mushiba, worked on her vibration. Many of you here have seen what that is about and/or have heard or read in the transcripts of vibrational changes. When we first entered through Mushiba, the vibrational changes were quite major and quite significant and lasted a considerable amount of time, as you measure on the plane.

Once all of that was completed, several years of earth plane time actually, we indicated that there would be minor vibrational changes periodically. They would not have the kind of disruption that the major ones had had, and that there would be a major vibrational change within Mushiba as The Shifting became closer and closer at hand. That situation is upon us now. What is about to occur vibrationally on the planet is quite significant. We have indicated in our last several sessions with you that the planet is about to undergo very significant vibrational changes within this earth plane year.

Due To Upcoming Vibrational Changes, Summer Sessions Will Cease And Resume In The Fall

Several earth plane months ago, there was from Mushiba's Higher Self a large infusion of energy. It has settled in now and needs to be worked with vibrationally in order for the next stage of our mission to be completed. As such, this particular vibrational change that will occur in Mushiba requires that we place her into relative isolation for what you call the summer months. We, therefore, in order to do this, will cease coming in publicly during these what you call summer months. The one exception to that will be the Summer Season change, as you call it.

There will be a Summer Meditation, as we had indicated when we presented the Spring Meditation. That will occur on that date in time that this event occurs, closest to that session time that we would have ordinarily entered in. If that is confusing to you, you can ask Mushiba for the date when she returns. That will be our only Public Session until what you call the fall arrives. It will mean also that the meditation sessions that Mushiba has led on the alternate times when we have not entered in, will cease for this time frame.

The space that you find yourself in is open and available whenever any of the Metagers are here. Mushiba will be here during this summer time, as you call it, but will not be able to counsel any of you, as some of you have become accustomed. She will only be able to focus on that which we indicate to her to focus on. It is a particular type of behavior that we step in occasionally and set the parameters. This is one such occasion. It is a time of renewal for all energies. The

vibrations of many of you need renewal, need a time of reflection, need a time to step back from the information that we have been giving to you, and to assess if that information is appropriate for you, and to return, if so be it, renewed with a sense of energy. We will return in that first time in September. You will receive information from the Metagers reminding you.

It is a time of reflection for the mission of Terra Lux as it relates to the mission of Waith and Company. It is critical for all energies to periodically assess their path. The path that the Metagers have taken, along with Mushiba, and along with Waith and Company ~ and Waith and Company along with Amelius ~ is at that point of renewal, rejuvenation. There are tremendous changes about to occur in the planet that will make what has already begun seem calm.

Mushiba's vibration will be prepared during these coming Summer months to Be of Service to those of you who may feel unprepared for what is about to occur. It will enable a different type of energy coming from us to enter in, as it always has when there has been a major vibrational change. Our strength increases as Mushiba's vibration changes and strengthens and increases. It then enables us to be of greater service to all of you, and it enables us to perform our mission of helping during the Earth changes. Mushiba's vibration will be significantly different. It will bring about encasement changes, as it has all along. It will be significant. It will be noticeable.

Her mission takes on a new stage now. Those of you who have experienced the work that she does with energy, and does very privately without fanfare, as you call it, will now see a change in the way the energy work is presented to the public. It is part of the mission ~ the next stage of our mission. We have often indicated that our mission is in many stages that is gradually revealed. There are several more stages that we will reveal as it is appropriate to do so. This new stage coincides with the stage of change that the planet undertakes. There will be major upheavals occurring, after the summer months, in all aspects of the earth plane, the planet, all the kingdoms on the planet, and all the ways of life as you know it ~ all changing. Some of you will not be able to handle the upheaval. Some of you will look to others to help you. Some of you will be the helpers. Some of you will leave and some of you will stay.

As we have said, the earth is in its next to the last stage of cleansing, and will be in this stage for some time yet, as measured on the plane. But it is, this next to the last stage, now moving into the final stage of the next to the last stage. Rapidly moving, as had been anticipated.

Thus, we will have for you a most joyous Summer Meditation. It will be a time of strengthening of purpose. When we return, we will be stronger, Mushiba will be stronger, and the Metagers will be stronger. It is a time for you to reflect on what you may want to contribute to our mission, if at all. You contribute by your mere presence at Public Sessions. Some of you may want to contribute more in the development of the mission. There is much work to be done. The development of the community component of Terra Lux moves into a new stage now. Some of you may want to be part of that. Some of you will not want to be part of that, and some of you may not be part of that.

Those in The Company will also be rejuvenating, will also be reflecting, and will also be able to enter in through Mushiba in a stronger way once the vibrational changes have taken place. We will have a return engagement of all The Company in that time frame known as fall. That is what we have for you this evening. We would take questions.

Because Of This Transition, Will There Be More Upheavals In The Terra Lux Area?

Some will, my love. Not terribly significant, however. There will be more upheaval in systems in this geographic area than there will be in the earth. There will be political, economic and social systems being disrupted in this particular area that Terra Lux is responsible for. There will be some minor types of earth cleansings. The earth upheavals will be occurring in other parts of the planet as well as the other types of political, legal, economic, social ~ you name it ~ all of those systems.

After The Vibrational Changes, Will The Terra Lux Community Role Be Different?

We will not be asking those who come to Public Sessions for anything different than what you have been accustomed to. The role, the stage, the dimensions of the mission of Terra Lux will be different than it is now. You will see certain changes, but it will not in any way affect the open house component of our Public Sessions. It relates more to that which goes on when we are not here speaking with you, the way in which the dissemination of our information must be presented, and the assistance that Terra Lux gives to helping balance earth plane and spiritual ~ the abstract and the concrete ~ in preparation for The Shift.

You are all welcomed, as you have been, in the same manner. You will simply find more information available in written form, as well as other forms, for the dissemination. There will begin a process by which you can study the information. That will be set out in the fall. There will be opportunities presented, if you so choose to partake, of assisting in the work of Terra Lux. It is a community, but it is not a commune. It is not a farming community, that many think that going into The New Illusion, one must become agriculturally oriented. This is not the case. It is a highly technological illusion about to be presented, not a farming community.

Waith Announces Some Changes That Have Been Made After The Summer Retreat (September 05, 1995)

We are most pleased to be in your vibration, and back from our summer retreat. Actually, it was Mushiba's summer retreat, and quite a retreat she had. She gave new definition to this word you call WHINING. ☺ The vibrational changes were not quite what she had been expecting. They were quite different from the others that she has experienced, and we are most anxious to talk in our special session with those who would be in attendance ~ the implications of vibrational changes, as The New Illusion rolls along, and comes to its head, if you will.

We have some changes that have occurred. We are now entering into a new stage of our own mission. Even though we have been in Mushiba's vibration from what you call this January 1st, or the end of this earth plane year, it was actually a number of months of earth plane time before we began speaking as we do now. And actually, this time frame in which we find ourselves now, is the anniversary of when we finally began to speak, and of course have not stopped since then.

Thus, we mark now a new stage in our mission. We have indicated that there is much to our mission that we will reveal as time on the plane goes on, and there are still several more stages to our mission, some of which will occur after The Shifting. Thus, this stage that we enter into now, is one in which we will more concretely prepare entities for vibrational changes.
