Introduction Of Susan, The Sixth Member Of The Spirit Group

We are aware that some of those in The Company are wanting to be spoken to and we have planned for this session to allow several of The Company to come through and speak with you. We are very overjoyed first and foremost to introduce to you the final member of The Company. You have met five out of the six. You will now meet the sixth. That which needed to be accomplished before the sixth was to be introduced has been accomplished, and we are now prepared to begin certain types of occurrences.

And so we will begin by introducing to you the entity that will go by the name of Susan. Susan is of The Angelic Force and was on the earth plane not too long ago and served as the mother to the mother of Mushiba. She left the earth plane much before Mushiba entered. Her purpose was to bring onto the earth plane six entities. She decided at the end of her mission to bring in a seventh entity. We give this information for the record.

There are some very significant occurrences that will begin to unfold as a result of the mission of Susan. She has been on the earth not too often but has worked with Mushiba in several instances and is a part of a very special mission which will begin to unfold for all who would come to seek guidance from Waith and Company. She will also be available to be called upon by all of you just as the other five are available.

And so what we will do now is introduce to you Susan. And when she has spoken to you for a brief time, for she will require a few more entries in and out before her vibration becomes adjusted to Mushiba's, and when she is departed from the vibration, we will let you guess as to who comes in after that ~ as if you will not be able to tell.

Upon completion of the visits from as many as they can manage to work during the time allotted I will return to bid you farewell and give you the final blessing. So I prepare now to move over and allow Susan to enter the vibration.

Susan Will Be Helping Those Considering Joining The Angelic Force

Susan: Salutations to all of you. I am Susan. This is quite a new experience for me. My vibration is weak. I will increase my vibration over time. I am most honored to be here. I am so very excited to be a part of the mission to help all of you and to have many of you join us in The Angelic Force, for there are many of you here who have that potential, and I am here to help in sort of focusing many of you in making your decisions to enter the Angelic arena at some time during eternity. It is a most enjoyable experience to feel such brightness around at such a different level, a different dimension than I am accustomed to.

How long has it been since you have been on the earth plane?

Susan: It has been in the frame of the earth plane a very short time since I left. It has been perhaps fifty to sixty years that I left. I was on the plane for a very short time and actually I did not come in through the birthing process. I came in as a walk in, as it is referred to.

When you say that you are here to help us focus in our decision, what does that mean?

Susan: Many of you will be given an opportunity to make a decision about coming into The Angelic Force when the time is right. Many of you have a rather long path before that decision will be ready to be made, but there are certain types of activities that will be presented to you that I will serve as a guide for you that may help you to focus on whether or not you want to assume the responsibilities of The Angelic Force. It is not for everyone. It is offered to everyone but it is not for everyone. So this will be part of what I am here for.

I have a very definite mission to bring to fruition where the entities that came in through me while I was incarnated are involved, and it is something very, very important and once that is completed I will be here through the entire time, through The Shift of the axis and beyond until Mushiba is ready to complete and join us.

It feels very nice to be here, and I look forward with much anticipation and excitement to being with you all and to helping. I have had much experience in the realm of guide and am helping Farena. It is very easy for me to reach those on the earth plane through their meditations, and now that I have been introduced, and you know of me, you may, in your meditations, call on me, all of you. I would be most honored to Be of Service and to be able to help you. You do not need to feel that I am only for very specific people or very specific things but rather if you feel that you would like me to help you, then simply ask me and I will do that. I will come running. ☺

Susan Projects Herself In The Color Of Blue

Is there a specific way that we would know that it was you?

Susan: Yes. You will know it is I. As Bathusela gives you pink, I will give you blue. We are allowed to use color, many of us of The Angelic Force. Mushiba's color is violet. Many of you have already experienced this and so you will know that I am with you. Just as Bathusela has manifested once very pink flowers on your car, my dear, I will be able to do that in blue. ☺ (Susan is speaking to a member in the group)

Susan Gives Advice To Someone About Their Guide

I have been trying to reach my guide, and I was wondering if maybe you could either give me some advice or help me to contact her.

Susan: Your guide is, oh, most beautiful, and is most excited about your advancement. And she has played a very significant role in helping you. And part of her mission though has been not to directly communicate with you until you have reach a certain level. You are reaching that level now.

The time draws near when you will have the ability and your Spiritual Centers will have cleared themselves to the point where it will be a natural thing for you to be able to directly communicate with this particular guide, this female energy. You feel her closer and closer now. You are a fingertip away. Continue in what you do, and very, very shortly you will feel your hair on the right side of your head tingling. It will actually be your scalp, but it will feel like your hair and you will know that it is time for you to communicate directly then and she will give you her name.

A Question To Susan About Several In The Group Having A Dream Of Waith's Imposter

Susan, in a dream I find myself in a group. In the group appeared an entity with like a featureless mask and eyes of fire. The people were afraid of him. And when I looked at him, the eyes, the fire started to diminish and the face changed very rapidly into three or four painted faces, and then it turned into like a regular person. It was pretty vivid. Another one in the group is seeing this entity. Is it something for us to be concerned with, or was it just a lesson?

☼ I have had a very similar dream also, Susan.

Susan: Waith is instructing me now that this is his imposter attempting to do some of his mischievous works. You are not to fear it, for now that you have acknowledged it, it will be taken care of from this end. Its significance is simply that the imposter from now until our mission is completed will attempt to create confusion, will attempt to create disruption.

This is to be expected and we of The Angelic Force are here to protect you all. You must, of course, learn to protect yourselves, for that is the ultimate goal or mission, to brighten your own Lights, but we are allowed at this time on the earth plane's evolvment as the cleansing approaches and the forces gather, those of the dark and those of the Light, that the mission of The Angelic Force increases in its intensity, and our sole purpose becomes that of guidance and protection, and we are allowed to protect in ways that we are not normally allowed to do. It is not interference, for we are never allowed to interfere. However, we are allowed to give a few zaps. ☺ ☺

What must be accomplished, however, before we are allowed to do that, is for you to experience what you have experienced in the dream state ~ and to bring it out into the public for discussion ~ and for acknowledgement that it occurs with more than just one ~ and so that you become as a group, and as individuals, able to recognize the imposter,

for you bring it up for public discussion rather than keep it within you and think that it is in fact the right kind of message ~ for when you feel that anything that comes through to you is less than what you think it should be, then you must challenge it, and you must many times bring it to the group such as you have done, so that it can be dissected and acknowledged for what it truly is. It will cause you no harm and, as usual, as with the imposter, Waith handles it.

I have a friend who had a similar experience in the dream state. At first, he was unable to see, then when he was able to see again, it was like lightening, and then blurred vision and blurred hearing. This strikes me as something similar. I wonder if you could tell me if it is.

Susan: The imposter manifests himself with symbols of fire. It is something that Waith has alluded to in the past that anything coming through that has some type of fire is to be viewed very cautiously, for this imposter is one of intense darkness. Compared to those of The Angelics he is at the opposite end of The Spectrum. To those on the earth plane and to those in other dimensions he is not quite as far away in darkness, remembering, of course, that The Spectrum of dark and Light is relative to where you are on The Spectrum. However, this particular imposter, while very dark in relativity to the Angelic, is not considered dark to many ~ would in fact be considered Light to some.

Would my friend then be affected by the imposter or is this a message for me? I do not understand this particular ~

Susan: You are not to fear anything that is manifested through the imposter. As I have just indicated, the important thing is to bring it out into the group, for the imposter will attempt to do this through other friends of yours and attempts to create confusion in your life. There is nothing for you to fear. There is no reason to not see the friend. There is no reason to think of this as anything other than the imposter attempting to create disharmony within your own vibration.

Sending Light To The Dark

Susan, would it help to send the imposter light?

Susan: As always it is very good to send Light and to send prayer. Every little bit helps. It is very good for all of you to utilize the philosophy of Being of Service and to become selfless. Remember that Light, while it may appear not to affect an entity of the darkness directly, has an effect on The Universal Consciousness, and will in some way affect, and if it is done enough, strongly over time, it may impact upon this particular entity ever so slightly. And so, yes, it would be most beneficial. He will continue, however, to do what he attempts to do. He is a direct foe, shall we say, of Waith, and Waith keeps him in the proper prospective.

There is much work that needs to be done at our level to help this entity, for the path of this entity, of course, cannot be revealed to anyone. But recognize that we have our

assignment and mission to help this entity and that he has many in his realm just as The Angelics of the Light have many in their realm.

And the Light does win, my dearest ones. Rest assured, regardless, the Light wins. But it is lessons that you all must encounter in understanding how The Flow of The Universe works. And as you lighten yourself so too will you be able to fend off those of the dark, for as they are attracted to your Light, so too can they be repelled by your Light, so that you would not have any attacks eventually, for they cannot get near you even though they would attempt to. Nonetheless it is for lessons to be learned that that which occurs now occurs. We will protect you.

Waith is now informing me that it is time for me to depart, for there is one other who will now come through and speak. We are so happy to have come in now and spoken to you all. (Susan leaves and Francis enters)

Francis Comes In And Discusses Animal Abuse And Forgiveness

Francis: It is I, Francis. Thank you for wanting me to enter. I have been with several of you working in the area in which I am designated as part of this mission. And now for the record please state your concerns and questions so that we may address them.

I have recently watched a film that was most upsetting about animal experimentation, and I am having a hard time forgiving the people who are responsible. I was wondering if you could advise us on this issue. Is there anything we can or should do?

Francis: Forgiveness is a very easy concept. It is a most difficult application. Isn't it? It takes many lifetimes to get it down. It is important that you begin the awareness of The Animal Kingdom and the abuses of The Animal Kingdom. And we realize how difficult many of you find it to forgive those who abuse animals. You must not be too hard on yourselves. Recognize that the ability for forgiveness evolves in the Soul, and that as you become more aware, you are able to become more forgiving, for realize that those who abuse the animal are involved in their own soul's path, and that they do this for lessons to be learned, that all that occurs is for lessons to be learned. And that the way toward forgiveness is, first and foremost, for you each to forgive yourselves for your own attitudes toward animals. This is what most of you are feeling now. Those who might have the difficulty in forgiving others feel the guilt themselves, and thus it transfers itself into external sources. Rather, go to your inner self and forgive yourselves first. And then it will begin to come from your soul and it will be very easy for you to forgive others.

A Question Is Asked Of Francis, If The Time of Francis Was His Last Incarnation

I have been reading a book about the human aura, written by Kuthumi, saying that this was your last incarnation. Is this correct?

Francis: The issue of the parallel lives and simultaneous lives presents itself now. My path in which Francis was a part of it has in fact ended. And it ended with the incarnation of Francis. However, my energy form had many paths, and this particular manifestation was one of those paths. It had what is referred to as a crossover with the path of that which culminated Francis. Thus, there were very many similarities of soul purpose manifesting themselves, and to avoid, shall we say, confusion it would be perhaps simplest to say to that question, yes, that was I, not in its entirety but nonetheless yes my energy form.

Francis Answers Questions Of Plants, Animals, The Elements, And Grounding Yourself

I am taking care of someone's plant. It had bugs on it. I gave it a chemical bath. I feel like it needs it again.

Francis: Be very careful with the chemicals. This particular plant needs companionship with another plant of its same species. It needs to be placed in an environment of soft darkness. It has been traumatized for a particular incident that was not the fault of anyone, but it was not able to withstand the negativity of the environment from which Mushiba has just come. It was most delicate upon its arrival there, and that environment only caused greater disruption, and when it was brought into the environment of the new house, it felt alone. So, it needs a friend. It is no different than any other lifeform that needs its own kind at times to help it. It is recommended that you place it into, not complete darkness, but rather a semi-darkness, and that perhaps one of these night lights
~

Should I bring it back over here?

Francis: We feel, that until the environment is settled here, that it would be best left with you where it can maintain quietness, for there will be much noise occurring in this environment for a short period of time.

I have a dog, and Barnabus lives here. And Mushiba had a wonderful idea that I should bring my dog here, and that did not quite work out. She mentioned to ask a question of you if there is anything that could be done to enable the two dogs to be together.

Francis: We do not see that this would be possible. ☺ ☺ Barnabus, though, will be here for a short time more, and your pet has presented to Barnabus a most interesting test that he will take with him when he leaves this incarnation and enters into the human plane. There is the lower Chakra issue. ☺ ☺

Are you also in charge of all The Elemental Kingdoms?

Francis: To say IN CHARGE is a bit ~ gives me much more than I feel I have. However, I do have the ability to guide those kingdoms relating to the animals and plants and minerals.

And thus I am able to give you all guidance in understanding how they all interconnect and to help you in accepting that they are lifeforms to be taken care of and to be respected, to help you in understanding that your use of them, while needing to have an altered attitude, need not cease completely, so that when any of you, for example, while we will help you in changing your attitudes toward the consumption of animal, for many of you it will not occur in this lifetime that you will cease consumption completely. But rather, you will simply change your attitudes and have a more humane attitude.

It is an evolutionary process and one in which no entity should feel obligated to exhibit certain behavior for it is the Soul that determines what will be done and the purpose is truly to flow with your own soul. And you may find that part of your purpose in this life does not relate to eliminating consumption of certain animals, but rather other issues. You must not feel pressured or obligated to do certain things that you see others around you doing and that you, too, must do it. You must do only what you must do, what is right for you.

Francis, my cat was sick a while ago and we changed the diet. It seems to be better, and he is happier. Is there anything more that I can do for him? And also, I would like to know if I should bring in another cat, because he is old, and I thought it would give him something to do, but I do not know if it would be too traumatic for him.

Francis: We will address the issues as you presented them. The diet that you currently present to the cat is adequate. However, we would suggest that you add ~ I must search for the correct description of this. It is a granular type of food, very, very small, granular. We see it as a brownish color, round in its dimensions. Search in the store. You will see it in a cardboard container that has on it a blue color.

Is it cat food or people food?

Francis: That is difficult to answer. That is ~ I am regretful that I am not able to respond that specifically. It is difficult, you must realize, at this level to become that specific. You will know it. I will go with you. ☺ ☺

I am a musician. I have trouble keeping my physical body from just floating away sometimes. What would be the best way to funnel these hundreds of thousands of different energies that I have going inside myself all the time? And what could I do to direct all this energy towards some, I am thinking of a word ~

Francis: We understand your concern. You are asking primarily how to first be able to ground yourself so you do not, in fact, leave your body, for you really do prefer other dimensions. And secondly, once that grounding has occurred, how do you focus your energies?

You have a very strong soul's path in the artistic, out of The Menu of talents and experiences that were available for you to choose from. The artistic path was one that

you selected. You have been unable thus far to truly express that path since you had some loose ends to deal with. The loose ends are tying up now very nicely, and it is time for you to begin working with your artistic path.

We would recommend at the beginning that you begin to write songs, as they are referred to, put them to music, for your focus will be different now that you have opened your Spiritual Centers and they will not have the ~ the songs will not have the orientation that they have had in the past, but rather will help to increase the vibration of the spiritual community, for a song has its vibrational attunement that if used correctly helps to increase and lighten vibrations. And you can serve a very important purpose within the community by providing songs and helping to raise the vibration.

By the sheer act of creating the song, it will utilize your mind in very important creative funnels and thus will help ground you and help you to center yourself more in the spiritual as you want so very much to do. It will help you to gain perspective of the world around you as you see the way other entities respond so positively to that which you create.

I am told that bats mostly come out at night because they cannot see during the day, and this bat flew around me as I got out of my car at home and landed close to my shoulder at three o'clock in the afternoon. And the interesting part about it was that I was not frightened at all of this bat. I did not want it to sit on my shoulder but I was not afraid, and I would like to know what significance this had.

Francis: This particular energy form is at the end of The Animal Kingdom life, has taken the form of this particular type of animal, and is very highly evolved at The Animal Kingdom stage. It is, first of all, able to move about in a more flexible manner. It is not restricted. The only symbolism is that this bat, this animal entity, was drawn to your Light.

This animal entity is about to leave the earth plane and move into a higher dimension and was simply attracted to your Light. Very gentle creature, no longer taking on the potential destructiveness of that particular species and came into that particular species to help others of that species to evolve, to show them that they do not need to be destructive, and to help them in their own souls' paths. This occurs, you see, in The Animal Kingdom, and when you see those of a particular species acting different from the norm, that is acceptable in the species, recognize that it is a highly evolved animal form. So it was simply coming to you in friendship.

Waith has talked of climate changes with periods of hot and cold. I am concerned with some of my delicate plants. Can you give me some advice or precautions I should be taking?

Francis: Remember that the cleansing is meant for all lifeforms and that that which you need to know will unfold and will be given to you as the time is appropriate. You will be given guidance and there will be ways in which protection can be given to those of

The Plant Kingdom. This information will come gradually from us when it is appropriate. Too much too soon will not serve the purpose, and so we will say to you, do not be concerned, do not worry, for that which you need to know will be given to you and you will, each of you who find it within your path to work with plants, will heed that which we give.

Francis, could you give us suggestions on how to motivate our puppy to being a good puppy without having to resort to too much spanking and that sort of thing?

Francis: Do not spank the entity. You must, in treating animals, never spank, never strike. They respond to that in a most negative way. You must not do this. This is a very delicate entity that has been brought to you, 'tis very new in The Animal Kingdom and is very sensitive. You must rather hold and hug. Do not raise your voice, but rather when the entity exhibits behavior that is not correct, to go to the entity and hug it, soothe it, and say, "You must not do this. We love you, but you must not do this, for it will not be good for you." Now, you will not have with this entity, what you might refer to as a well-disciplined dog. It is not part of what needs to be learned by this entity, by this spirit, but rather, a feeling of acceptance and love.

Francis, I have had a feeling for quite a while that our dog has been with me in a past life. Could you tell me if that is true?

Francis: Of Course. Those of The Animal Kingdom follow many of you through many, many lifetimes, and you will feel that affinity.

What is it that gives her such a motherly instinct?

Francis: It is simply that she has been with you in many lifetimes and has developed a connection and a very protective manner.

Is it possible for a dog to see you as a spirit, or to be psychic?

Francis: Most definitely, Barnabus sees me all the time.

Does our dog, the black one, see you, by any chance?

Francis: I have shown myself to him. I have shown myself to all of the animals currently manifesting themselves with those of the spiritual community that is developing. They all know me.

It is time now for me to depart out of the vibration. Go in peace!

Waith: Well, here I am again! It is good to be back. It is always good to have those of The Company received so well. They are most happy about it, as am I, as you get to know their vibration and understand their purposes.

Advice To Someone With A Picture Of An Interpretation Of A Chakra

Waith, I brought a picture with me and wonder if you could look at it, a picture of a Chakra.

We would advise caution. It is not completely accurate, but rather is an interpretation of a particular entity's view of the Spiritual Centers which, while not completely inaccurate, could cause confusion to many who believe that the seven centers have become gospel, are all that there is. There is much more. So it is recommended that this ~ that caution be given here. It is not something that the majority should be viewing and using as information, and we feel however, that you have the ability to differentiate and to understand the significance of it by going to your Higher Self, and in your meditations, seeking the guidance for understanding what this particular interpretation means. I will, if you so desire, help you in your meditations with this.
