## Waith Discusses Who He Is And His Mission (October 01, 1987)

*I am here to be of service. I am from the very Highest of the White Light and my vibrational name is Waith. I am an Archangel. I am here to help prepare as many energies as we can for the coming Shift of the axis and to help all to prepare themselves spiritually so that when The Shift occurs you will be able to make the decision as to whether you want to stay or not. If you choose to stay, then I will have given out information from now until that time for the physical survival necessary when The Shift occurs.*

*My purpose is twofold. I am here to give certain information. That information will be revealed as time goes on in these sessions that we have. And I am also here to assist individually those energies who may need some guidance. I am not here to tell the future. I will not do that. I may give situations that are probable, based upon certain behaviors and attitudes existing currently. However, the issue here is free will, and you are going to be helped in your own free will to make your decisions for yourself and to trust in your Higher Self and to learn to communicate with your Higher Self. Each of you has the ability to connect directly to The Universal Consciousness, and I am here to help you to gain that ability that has been lost for many of you. Many have done this in the past and it has been forgotten.*

## Farena Introduces Herself To The Group (December 31, 1987)

*Farena: Hello-o-o. My name is Farena! (Smiling, moving arms and head, touching hair, with a high feminine voice). Oh-h, I love Mushiba. I have loved her for a very long time. She and I and her twin flame, and my twin flame, are all very, very connected. Oh, this is so wonderful. I am most pleased to be here with all of you. I was called in specifically to help. You see, Mushiba's twin flame and I are here at this dimension, and my twin flame and Mushiba are on the earth plane. We have waited so long for this moment. It is most enjoyable. I am uncertain as to what my mission will be here when I will be allowed to come in and respond. However, Waith knows the answers to this, and I am just most pleased to be a part of all of this.*

*I love all of you! You are all such shining lights. I wish I could describe to you what it is like to be in this body and to feel your vibrations. You are all of such Light. It is beautiful. We have stood by during these open sessions, not experiencing it the way Waith has described it for us. It is now time for me to leave so that some of the others may be allowed to come in and introduce themselves.*

## Jacques Introduces Himself To The Group (December 31, 1987)

*Jacques: I am a doctor. That was my last earth plane life. I am a healer. My function with Waith and Company is to give guidance in the medical area. It is I who has talked about grapefruit juice, for example. And it was I who requested, with Waith, that a certain entity be here today. (The following is directed to this entity) Yes indeed, we are here to help you in your healing. You have a very special mission. I have a very special mission here myself, for I want to earn my wings rapidly. I am finished with the earth plane and now I am here to help any who want particularly to improve their healing abilities. You are my first charge, so to speak.*

*You may call upon me when you begin to have difficulties, when you begin to doubt what is happening to you. I am here to protect you and to help you to improve upon your own healing abilities. You are a healer. When Waith enters Mushiba's vibration, now that we have done this breakthrough, you will be able to call upon me. It is most enjoyable to be here with you all.*

*I will leave now. There is someone else who wishes to introduce. You will know most definitely when it is I who is coming in. I bid you farewell.*

### **Francis Introduces Himself To The Group (December 31, 1987)**

*Francis: My name is Francis. I call upon you to bring the animal into my vibration. (Barnabus, the dog, is brought into the room.) Yes. Barnabas. Barnabas. Barnabas. Lie down, Barnabas. (Barnabus heads for Judith's plate, which is on the floor) It is all right, Barnabas. He is hungry. It is I, Barnabas, your protector. Lie down at my feet. Now, I give to Barnabas a special lesson.*

*I am known on the earth plane as the Patron Saint of Animals. I am part of this mission to help in the understanding of all on the earth plane of the connectedness of The Animal Kingdom with that of the human, to help all of you to modify your behavior toward The Animal Kingdom. I am part of Waith's charges, if you will, and it is with great honor that I feel a part of this mission, to Be of Service to all of you, to help you. It is not an easy task to modify your attitudes toward The Animal Kingdom when this is much more than the issue of eating meat. It involves all of the treatment of The Animal Kingdom, and in my own small way, I am here to help you and to answer questions, as time progresses, regarding animals and their connection to all of you.*

*Barnabas is a very special entity in The Animal Kingdom in that he has now progressed to a point where he can evolve into a higher life form. (Francis holds up the index and middle fingers) This is my sign. When I give you this, you will know it is I who is providing the information. I, like Jacques, am here to assist the group and to provide the answers as they occur. We have been doing this thus far. Waith has been giving the information and seeks the knowledge that we have. He knows, himself. However, he seeks it from us so that we may learn and Be of Service. This is our mission, to be of complete unselfish service to all of you. I have been in this dimension for some time now, learning much, and I want very much to be able to share it, to assist all of you as the*

*time progresses. I will depart now, now that we have calmed down Barnabas. It has been a pleasure speaking with you.*

### **Jenjura Introduces Himself To The Group** **(December 31, 1987)**

*Jenjura: I am new to all of this channelling. I have a very special mission, which will be unfolded as time progresses. I will not be as evident in the information given as some of the others. I am going to be a researcher, if you will. Part of my mission is to gather the questions that seem to be of utmost importance to those on the earth plane and to put those questions into, what we might call, an agenda, and gather the information in a simplistic manner, for our group mission, as Waith has said, is to provide the information in as simple a manner as possible.*

*Those Universal Truths, and all of the information that appears to be so complex, I am able to gather from many sources, the words, so that we are able to translate it into understandable dialogue for all. You will not hear my voice too often. However, you will hear the results of my investigations. And I, like the others, can be called upon by anyone for assistance in your meditations and in your daily lives in your attempts to reach your Higher Self. I am available to help and guide you.*

*Even now, as I am here, I am gathering certain questions that are uppermost in your minds, the confusions that you are having. And know that I will be taking these questions and seeking the way in which to translate the information, so that one of these sessions coming, you will have, what is in your mind now, answered. You will not even have to ask the question, for these sessions will have topics. These topics will be relating to the questions that you all have. This is our mission. It is very simple. We are here to Be of Service to all of you. I bid you farewell. Bye.*

*(Bathusela enters, moving arms, waving hands, flips hair, moves head back and forth)*

### **Bathusela Introduces Herself To The Group** **(December 31, 1987)**

*Bathusela: I am Bathusela. I am of The Angelic Force. I came into being as an Angel. I have been sent by Waith ~ it is not the same. I am the one who gives you pink. I am the special emissary who Waith sends. I diffuse darkness as much as I can, and you will see the residual in the form of pink sparkles. That is my sign. I love you all. I will not be speaking very much. My role is to be called upon for special protection. And while I do go to the male energies, I am primarily for the female energies, to help in the strengthening of the female energies on the earth plane to understand their femaleness, to help to understand femaleness. This is all very new to me. I have been with each of you. Mushiba's physical body is beginning to, shall we say, overheat. We have*

*done much to her. So, I will depart and Waith will now come back and smooth out the energies that have been all rippled with all of us.*

### **Waith Returns After Five Of The Six Were Introduced (December 31, 1987)**

*Waith: There is one who is yet to be identified. There were five who you met. The sixth one will be identified when the time is right. It is not right yet. I am most pleased by this. Even more pleased that Mushiba's physical body is able to take all of this now. It has been quite a time and, as some of you know, the cellular changes have at times taken their toll on her. However, we have still major changes to occur in her cells. It will be of a different category. We are most pleased that this has all occurred and that Mushiba's energies are so high.*

### **Farena Explains Some Of The Communication Barriers From The Spiritual Side (May 10, 1988)**

*Farena: Well, there appears to be a vibrational barrier that exists between dimensions, and it is part of our learning to understand how to break through these barriers. They are perceptual barriers. Just as on the earth plane, you have illusions of materiality that serve as barriers for you, so too do we have perceptions at this dimension, and at all dimensions in reaching through to other dimensions in certain ways. I am able to come through at this level to communicate because of the connection with Mushiba and the barrier that has been broken with this and with ~ it is different. For me to do this on my own, I have barriers that I must break through.*

*For example, on the earth plane, this chair that you find yourself seated in is an illusion. It is really not there, however you think it is, so therefore you sit. If you were able to break through this perceptual barrier then you would know that it is not there and you would fall for the material would not be there. You could put your hand through your other hand, for it is not there. This is the only way I can describe to you somewhat the problem. It is complicated to explain, for even I have difficulty in understanding it and therefore have difficulty in explaining it to you. Waith could do this if he so wanted to, explain it to you.*

*You can all call upon me. It will help me in learning if you call upon me in your meditations. The more of you who call upon me for help, the more I can learn to help you. That is what I am here for, and I am in Angel Training School.*

### **Bathusela And Francis Help With An Issue ~ How Bathusela Manifests Herself (May 19, 1988)**

**My daughter and I thank you for helping with a particular situation.**

*We are most pleased that we were able to Be of Service to you. It was a combination of effort by Bathusela and by Francis. They are most pleased that you are pleased. You will know, as I have said to many who have had contact with Bathusela, you will know of her presence in your environment by a sign of pink. For some, she manifests herself in a pink glow or an ability to see a pink light, perhaps an unexplained pink light. And she is very, very advanced in her abilities to communicate with signs, unlike our little protégé here, Farena, who is struggling so, but her soul is in the right place, of course. ☺ So, you may find pink in your environment in the future, and if you have the sense that you are being assisted, you can be certain that Bathusela is a part of it.*

### **Farena, Could You Tell Us A Bit More About Yourself?**

**(August 30, 1988)**

*Farena: I am one of Waith and Company. I am one of the six who has been chosen. Of Mushiba and her twin flame, her twin flame is here with me, and my twin flame is on the earth plane, and we both as energies, though there are four separate, there are really two energy forms. We are special charges to Waith. Mushiba and her twin being the predominant special charge of Waith, Mushiba being chosen to become an Archangel at some time, we being chosen to be, my twin flame and I, of The Angelic Force, and I am in training now. I have finished my time on the earth plane. Mushiba's twin flame has finished on the earth plane and we hope Abalma will finish on the earth plane in this incarnation. We are not sure but it is very possible. And then there will be a uniting. And Mushiba's twin flame is not a part of Waith and Company. He does other things that he and Mushiba do in spirit form. And I, however, am beginning my training at the beginning stages of The Angelic Force, and my very specific purpose with Waith and Company will be revealed in a time to come. Certain events are about to occur that will then allow the true mission of what I am here for.*

*There are others in Waith and Company, Francis, for example, who is here to help in raising the consciousness of The Animal Kingdom of those of you to come to understand The Animal Kingdom, and he soothes The Animal Kingdom. You have seen, many of you, how he has helped Barnabus. And Jenjura, who some of you have spoken with, is our researcher, and his task is to take all the questions that we all sense from you and place them into some type of order so that Waith can present them in a way that is needed at the time. And Jacques is the healer. Jacques is the physician. Bathusela, many of you know Bathusela, she is a very special Angelic Emissary who has been with Waith for eternity. I am new to all of this and it is very exciting and I am learning, I am learning how to communicate with all of you through your meditations, and I have had some rocky roads here, as many can explain to you. ☺*

### **Introduction Of Susan, The Sixth Member Of The Spirit Group**

**(September 27, 1988)**

*We are aware that some of those in The Company are wanting to be spoken to and we have planned for this session to allow several of The Company to come through and speak with you. We are very overjoyed first and foremost to introduce to you the final member of The Company. You have met five out of the six. You will now meet the sixth. That which needed to be accomplished before the sixth was to be introduced has been accomplished, and we are now prepared to begin certain types of occurrences.*

*And so, we will begin by introducing to you the entity that will go by the name of Susan. Susan is of The Angelic Force and was on the earth plane not too long ago and served as the mother to the mother of Mushiba. She left the earth plane much before Mushiba entered. Her purpose was to bring onto the earth plane six entities. She decided at the end of her mission to bring in a seventh entity. We give this information for the record.*

*There are some very significant occurrences that will begin to unfold as a result of the mission of Susan. She has been on the earth not too often but has worked with Mushiba in several instances and is a part of a very special mission which will begin to unfold for all who would come to seek guidance from Waith and Company. She will also be available to be called upon by all of you just as the other five are available.*

*And so, what we will do now is introduce to you Susan. And when she has spoken to you for a brief time, for she will require a few more entries in and out before her vibration becomes adjusted to Mushiba's, and when she is departed from the vibration, we will let you guess as to who comes in after that ~ as if you will not be able to tell.*

*Upon completion of the visits from as many as they can manage to work during the time allotted, I will return to bid you farewell and give you the final blessing. So, I prepare now to move over and allow Susan to enter the vibration.*

### **Susan Will Be Helping Those Considering Joining The Angelic Force (September 27, 1988)**

*Susan: Salutations to all of you. I am Susan. This is quite a new experience for me. My vibration is weak. I will increase my vibration over time. I am most honored to be here. I am so very excited to be a part of the mission to help all of you and to have many of you join us in The Angelic Force, for there are many of you here who have that potential, and I am here to help in sort of focusing many of you in making your decisions to enter the Angelic arena at some time during eternity. It is a most enjoyable experience to feel such brightness around at such a different level, a different dimension than I am accustomed to.*

**How long has it been since you have been on the earth plane?**

*Susan: It has been in the frame of the earth plane a very short time since I left. It has been perhaps fifty to sixty years that I left. I was on the plane for a very short time and actually I did not come in through the birthing process. I came in as a walk in, as it is referred to.*

**When you say that you are here to help us focus in our decision, what does that mean?**

*Susan: Many of you will be given an opportunity to make a decision about coming into The Angelic Force when the time is right. Many of you have a rather long path before that decision will be ready to be made, but there are certain types of activities that will be presented to you that I will serve as a guide for you that may help you to focus on whether or not you want to assume the responsibilities of The Angelic Force. It is not for everyone. It is offered to everyone but it is not for everyone. So, this will be part of what I am here for.*

*I have a very definite mission to bring to fruition where the entities that came in through me while I was incarnated are involved, and it is something very, very important and once that is completed, I will be here through the entire time, through The Shift of the axis and beyond until Mushiba is ready to complete and join us.*

*It feels very nice to be here, and I look forward with much anticipation and excitement to being with you all and to helping. I have had much experience in the realm of guide and am helping Farena. It is very easy for me to reach those on the earth plane through their meditations, and now that I have been introduced, and you know of me, you may, in your meditations, call on me, all of you. I would be most honored to Be of Service and to be able to help you. You do not need to feel that I am only for very specific people or very specific things but rather if you feel that you would like me to help you, then simply ask me and I will do that. I will come running.*

😊

### **Susan Projects Herself In The Color Of Blue (September 27, 1988)**

**Is there a specific way that we would know that it was you?**

*Susan: Yes. You will know it is I. As Bathusela gives you pink, I will give you blue. We are allowed to use color, many of us of The Angelic Force. Mushiba's color is violet. Many of you have already experienced this and so you will know that I am with you. Just as Bathusela has manifested once very pink flowers on your car, my dear, I will be able to do that in blue. 😊*  
(Susan is speaking to a member in the group)

### **Jacques Gives A Brief Discussion Of His Mission In The Spirit Group (October 04, 1988)**

*I am Jacques! Well, I have been requested, and am very honored to be here. I am of the healing mission, and any of you that call upon me in this area, if you are having concerns of the physical encasement. I am here to assist you in this and to guide you in ways to resolve those issues of the Soul that relate to the issues of the physical. This is my function. I am here to come in your meditations, as well as to give information of a general nature for health, that which will guide many of you toward better health. I am also able to send energy when approved by those around me, to help in healing. It will occur, however, only when the Soul has resolved the issue, and not before that.*

*There are more and more healers coming forth now, many who have been trained on the earth plane schools for physicians, who are now realizing their own spiritual self and using their training in this lifetime, as well as from other incarnations, and coming together with their own advancing awarenesses to bring a greater number of healers to all of you. You will find them increasing now.*

### **Farena Enters And Gives A Special Energy For The Christmas Season (December 20, 1988)**

*Farena: Guess who?! ☺ ☺ Hello! How are you tonight in this wonderful time? What would you like to ask me? Waith indicates one question before I give you my special gift. My name is Farena and I am new to the Force of Angelics in Training, and I am here in this gathering of Waith and Company to learn very specific lessons in how to guide. I have a very special connection with Mushiba which will be given out by Waith sometime very soon. I have a very special mission that will begin very shortly that will entail helping to strengthen energy forms in their dealings with the missions that their soul has undertaken as we approach the time of The Shift of the axis.*

*I have a new energy that I may now transmit to you through Mushiba since the last time that I was in to speak, for the cellular changes have raised the vibration to the level now that I am able to send through a particular vibration to all of you.*

*I would like you all to please hold hands with someone next to you and now to concentrate your eyes upon the configuration of my hands. And as you concentrate your eyes upon this configuration, look at the depth that you see and follow that as my hands move and visualize vibrant White Light. Okay, now. (Farena holds her hands at the level of the third eye in a pyramid shape, fingers pointing in towards the head, tips of fingers and thumbs touching and palms apart so that a triangle is formed with the fingers forming the sides, and the thumbs, the base. She then raises the pyramid to the crown of the head, fingers pointing inward, then slowly brings the hands, still in the pyramid position, down over the body with the opening facing the group, down to the lap, and then, fingers pointing inward, raises the pyramid to the heart Chakra. She ends with hands on lap.)*

*We are completed now. What I have given to you is an energy to help you all to survive during these next few earth plane days. ☺ ☺ And I send to all of you my deepest love and my happiness to share with all of you. Farewell. Bye. (Farena smiles and flips her hair) I know that you are all waiting for that. I had to do it for show. ☺ ☺*

### **Francis Enters ~ Says He Will Be Manifesting In Physical Form At Times, When Needed (December 20, 1988)**

*Francis: Greetings. (Francis raises his three middle fingers in his traditional greeting of peace) As you all know; I am a bit shy about this. I prefer rather to work behind the scenes, but I wanted to come through now and express to you all the very deep love and admiration that I have for each of you, for you struggle, and you struggle beautifully, and in my mission of helping to raise the consciousness of those incarnated now toward The Animal Kingdom and The Plant Kingdom is being served by my most wonderful energy here now. (Refers to Barnabus, Mushiba's old English sheepdog) It is being served so beautifully by all of you.*

#### **He gets excited when he sees you!**

*Francis: Your consciousness is raising so rapidly now. So many of you at the individual level, and contributing, therefore, to the whole. As new souls find their way into our community, they will feel the influence and they will feel the love that emanates from each of you individually and as a group toward The Animal Kingdom and the respect that needs to be given to all life.*

*My gift to all of you is that I, on occasion now, will be able to manifest in physical form but I will not tell you, for it is not for that type of publication but rather I will do this when it is needed to relay particular messages. I will simply be there. We are able to do this, of course, when we reach a certain dimension. We are given permission by The Creative Force. And thus, I am honored now to have been given this permission, and I will from now until the departure of Mushiba from the earth plane, be able to do this. Many times, you will know that it is I. Many times, you will not but it will not matter for that which you need by my appearing will have been served. I am able, as Farena, to take one question. Perhaps one and a half. ☺☺☺ Ah, laughter! I am learning.*

**Francis, thank you for sending my cat home. What can I do to make their adjustment for staying inside easier? It seems to be hard for Fluffy right now.**

*Francis: As I had indicated previously through Waith, they learn lessons in The Animal Kingdom, these particular animals. They have certain lessons and tests that, once met, will aid in the other animals that will come into the community. They are being prepared in The Animal Kingdom for certain missionary work among those of The Animal Kingdom. They must learn boundaries. Once they have learned boundaries, they will be able to proceed. They are being helped at this*

*level. That which you assist at the earth plane level is adequate now. You must be very careful not to allow them outside of the enclosure. You will be guided appropriately. I must now depart. I thank you for allowing me to Be of Service to you. I send you also my highest love and my admiration to all of you. As it is said in the vernacular, Merry Christmas. ☺*

### **Bathusela Enters And Sends Her Special Energy To Cleanse The Third Eye (December 20, 1988)**

*Bathusela: Hello-o-o-o! I am Bathusela. I am here to let you know that I also am starting to manifest on occasion, and guess how you will get to know it is I?*

**Pink!** ☺ ☺

*Bathusela: I will wear pink! Sometimes it will be in concrete, what appears to be concrete body, and other times it will be one of my many visions where I am sort of ethereal and I am in spirit form, but yet image, the illusion, comes through. (Bathusela is holding her hands up with palms facing out and moving them around) Pink!*

*I will be here, of course, to help the female energies in strengthening yourselves as female energies. I have a special gift for you, for I, too, am now able to send through an energy. This is a different type of energy than Farena sends through to you.*

*I would like you all to hold out your hands like this with your palms up and with your eyes remaining open. (Arms are outstretched with palms up) You bring your arms and your hands up like this ~ (Bathusela raises her hands and the fingertips touch at the third eye as one would do if shading the eyes), and now place your eyes looking at the third eye, your own third eye, and surround your third eye with Light.*

*Doing this with your eyes open is a different technique than you are accustomed to, for I will now send to you a ray of White Light. It will penetrate through the physical encasement of that which is called your eyes and will move into The Third Eye. Surround your Third Eye with White Light, all of you, for I cannot do this until you have each done this ~ this protection. I begin now. (Arms at shoulder level, hands facing each other, shaking as Bathusela sends the energy) Slowly now, bring your arms down, bring your eyes forward, and relax. (Arms come down each side of the body in a circle and meet on the lap)*

*This was a special cleansing of The Third Eye enabling you to see better that which you each have as your mission and especially to help both the male and the female energies to understand each other and not to fight each other. I am able to take one question.*

Could we use this technique to help ourselves not fight the male entities, to strengthen that?

*Bathusela: This is a technique that must be used in conjunction with my own energies coming through. It is a special gift. We will very shortly be giving you techniques, as you so request, when we have the special session. That will be very, very soon. Mushiba is almost ready. Do not worry, my love, all will be well. Thank you for allowing me to be here with you. I depart now. Goodbye!*

*Waith: Well, here I am again! We are most, most pleased that these special gifts have been given to you and that the time has been reached in which they are able to give these gifts to you, for it will help to further the development of each of you individually as well as the spiritual community and will deepen your own spirituality, will deepen your own connectedness with the One. We would take also a question or two before I give you the energy that you have been waiting for.*

### Waith Explains How He Is Simply Essence, With Ability To Project In Physical Form (January 10, 1989)

Waith, do you wear clothes, so to speak, in your own kingdom?

*No. We have no need for this. I do not have a physical encasement of any sort. I am simply essence.*

It is difficult.

*It can be. It can be difficult and this is completely understandable. We are here to help you to understand.*

### Waith, Will You Keep Going After The Shift Occurs? (January 31, 1989)

*Yes. There will be ~ Realize that we are here for the duration until it is time for Mushiba to depart, which as we ~ as you know, many of you, is some time, and thus there will be many, many topics. There is so much information to give and to discuss and simply to absorb that in your entire manifestation, if I were to simply be here and speak now without stopping, would never give you all that there is.*

*I am here for the duration. We all are. We will go with you into the shelters.*

I thought you were going to leave us! ☺ ☺

*Mushiba would never let me! That was part of our agreement.*

### Farena Is Asked A Question About A Very Special Scent She Is Able To Give Out (January 31, 1989)

*Farena: Hello-o-o! ☺ Hi! It is a pleasure to be here! Oh, oh, oh! Waith is able to take this, but it is difficult for me! Oh. Hello.*

How old are you? You must be very young. ☺

*Farena: My spirit is quite old. But I am very vibrant in spirit. This is all such a wonderful experience. It is wonderful to be here. Does anyone have a question?*

Yes, I do, Farena. I was wondering if you were visiting our home this past week. Was it you who sent the fragrance of cologne?

*Farena: Yes. ☺ ☺ It is a very special scent that I am now able to give out.*

I thought the kids spilled perfume.

*Farena: Just as the others now are beginning to show you their sign, I have mine.*

Farena, do you visit all of us, or just a few?

*Farena: Some I visit more than others. I have visited all of you here. And some I have given a special little touch to. And some I am able to communicate with more easily. And the others of you I am working on.*

### Farena, Can You Tell Us, What Is An Angel? (July 10, 1990)

*Farena: What is an angel? WHAT IS AN ANGEL? by Farena. ☺ An angel is an entity that has a very special mission. An angel is an entity whose mission is to help all entities to guide and to love unconditionally. An angel tries the best not to judge and is given all of the abilities and techniques to not judge so that an angel can help all of you. And angels are assigned to all of you. You all have an angel. Some of you just do not know that you have an angel, and we are*

*here to help you in whatever way we can. An angel is love ~ and all of you are potential angels if you want to be, and you can be an angel while you are on the earth plane. An angel is really an attitude, an attitude of caring, of loving and sharing. (Beginning of sentence inaudible) ~ even when we are an angel.*

**Farena, why are angels taking time to talk to us in this manner? Why are you all coming through to talk to us now?**

*Farena: Why not? ☺ Understand that in other illusions, and the new one coming up, that angels are not thought of as some perfect being that is separate from all other energies. We are all One, and so more and more angels, or those of us from the Angelic, are speaking on the earth plane in places all around. And we are speaking through you so as to demystify The Angelics and to show that an angel is simply an energy with a specific mission to guide and help and love.*

*And angels are not to be bowed down to or thought of as any kind of super being, and that is why we speak now in greater numbers, for in The New Illusion we will be speaking even more and more, and no one will even think that it is unusual. We did not in Atlantis. We were able to come and go in The Atlantean Illusion without entities thinking that it was something very strange, but this particular illusion that is now about to end had as its groundwork certain very narrow views of The Universe. It was most necessary, but now we are ready to come back up ~ (Balance of sentence not clear on tape)*

**Francis, What Is Your Function In The Company?**  
**(July 10, 1990)**

*Francis: (Francis enters and holds up the three middle fingers of the right hand) It has been some time since we have been in the vibration. We are most pleased to be in your vibration now, and we are, thanks to Farena, lightening up. What would you ask of us?*

*Francis: We are known in the last incarnation on the plane as Francis of Assisi, and we have as our mission to assist The Animal Kingdom and to give information that will guide The Animal Kingdom ~ (Word is inaudible) all entities in The Human Kingdom ~ and thus, we give you information that will enable you to Be of Service to The Animal Kingdom as they are of Service to The Human Kingdom. This is our primary function.*

*We are not called upon all that often. We are in Waith and Company for very specific learning by being a part of The Company. And so, very often, when questions are asked of Waith concerning The Animal Kingdom, even though he knows the answers, he then requests that I give that information, if not directly to you but to him, thus enabling me to learn my lessons as needed in this area, for I continue in spirit now that which I have followed in the path on the plane. (A short pause) Farewell.*

*Susan: Well, hello. I am Susan. I am represented by the color blue, and I have a very specific purpose for being a part of Waith and Company, and I have a very direct connection to Mushiba. There are certain situations that will be presenting themselves very soon in which my special energy and talents and abilities will be called upon. I have not been called upon, but I have, in your meditations, come to many of you. I am a healer and I work in conjunction with Jacques, for I have entered into The Angelic Realm now with Jacques, to be of assistance. What would you ask of me?*

### **Susan, Is Part Of Your Mission To Do Healing Within The Community Of Terra Lux? (July 10, 1990)**

*Susan: We will be called upon to assist in spiritual healings of group situations.*

#### **Spiritual healings as opposed to healings on the physical level?**

*Susan: That is correct, my love. Understand that spiritual healing must work at physical, and thus, the two are interrelated, but our mission is to work with group healings rather than individual healings so that for those who come into the illusion needing to work out a situation with a group, we are here to assist in that. Farewell for now.*

### **Jenjura Enters And Discusses His Function Within The Group (July 10, 1990)**

*Jenjura: Well, the greetings to all of you! It is I, Jenjura! Yes. I am not allowed to come out very often now. ☺ And I have been given the name Jenjura as a reflection of what you call research. I am the Librarian of Waith and Company and, for example, if Waith asks Francis to get some information about a particular animal, I am the one who is available to assist Francis in finding that information. You see, it is not as many of you would think in searching out information from The Universal Consciousness that ~ that there it is, and we just take it. You ~ we must search it out, much like you would call a computer where you bring this information onto a visual screen and search out the particular information. Of course, one of the differences is that we are able to do this rapidly as opposed to what your inadequate computers are going to accomplish.*

**Limera: You do not have to boot up.**

*Jenjura: Boot up. Yes. Yes, Limera.*

**And you do not jam like the computers!**

*Jenjura: Quite the contrary, my love. There can be what is called short circuits. But this is the function of a librarian. I have been with Waith and Mushiba and Abalma in many, many, many incarnations. And it was I who was the first earth plane connection that Mushiba had with spirit, for I was speaking through another and Mushiba heard me speak, and I had a certain role to play to initiate at the conscious level that which had already been determined at the spirit level. And because of that I am now in Waith and Company but do not speak through very frequently.*

### Jacques Enters And Talks About His Function In The Spirit Group (July 10, 1990)

*Jacques: The blessings to you. I am Jacques. I also work on being too serious. What questions would you have of me?*

Jacques, your function in Waith and Company is that of a healer to work with Susan? Are you a healer on a spiritual level?

*Jacques: That is correct. Susan is here to help group. I am here to help individuals. And the time has now come for the actual physical healing, and this will begin to present itself in the special session.*

Do you show yourself as the color green?

*Jacques: Yes. That is correct.*

Do you come into our meditation like Bathusela does?

*Jacques: Yes. You need only call upon myself, and you need only call upon any of The Company and we will come to you.*

### Bathusela Enters And Discusses Her Function In The Spirit Group (July 10, 1990)

*Bathusela: Guess who I am. I come to you as pink. What do you think my mission is?*

⚙ Paint the world pink? ☺

⚙ To make life happy. Happier.

*Bathusela: Yes, that is true. We have a special working with crystals, and we are now ready after much preparation to help you all understand them. And you may call upon our vibration to assist you in understanding of the crystals and Being of Service to your crystals. We are of the Angelic, and as Farena so beautifully demonstrated, we are love, and we give to you all love, total Unconditional Love.*

### **Where Does Mushiba Go When Waith Is In The Encasement? (July 10, 1990)**

*There are times when Mushiba remains within the general vicinity of the vibration. Understand that the energy moves out of the encasement for the most part usually, and Mushiba then goes into other dimensions, always busy however, never just floating around, but rather goes to learn other things while we give you information. There are times, however, when Mushiba remains within the vicinity so that certain information that is being relayed will be with her at a conscious state. For the most part, however, she is not around, nor does she need to be.*

**Are there times when you are in and Mushiba is out and about that she visits us?**

*Oh, indeed. There are ~ very often, her vibration will simply move about in the general vibration, and that is occurring now. We have brought Mushiba back into the vibration. She, of course ~ she would prefer to just stay out there indefinitely. What other questions?*

### **Can Any Spirit Enter Mushiba's Body? (July 10, 1990)**

*Technically, yes. However, it is not allowed. We are not allowed to enter without her permission. And we have formed an agreement with ~ through Amelius, that no other entity will attempt to enter through except that which is designated by us and Mushiba. There will be times, perhaps in the future, as you would call it, that an entity other than who is with Waith and Company will be allowed to enter, but it will only be by permission.*

### **Those In The Company Come In Briefly To Greet And Speak Of Their Mission (June 13, 1993)**

*This is an occasion of great happiness for the gathering of so many beautiful bright lights, and it is always a pleasure for us to have gathered so many new energies into the vibration, and we depart somewhat from our usual sessions in this gathering in that it is a playtime and it is a time when you will meet, some of you, for the first time, the others who accompany me in our mission of information dissemination.*

*Some of you may recognize the energies that enter in and greet you. Others will find these energies to be new and ~ to you, and it is a time, therefore, of the beginnings of acquaintance, for it is always appropriate to meet new, brand new, energies, even though you all know each other because, you know, we all come from the same source. We are all the same energy, so we all know each other. However, in the experiences that come from being out of The One, we develop our separateness. We develop the roles that we play, and therefore, we are new, oftentimes, to each other in the roles that we play. Keep that in mind. We are not new as energies, but simply in the roles that we play.*

*So, you know, each in The Company has a very specific function, if you will. They have a very particular path of service, and on this occasion, they will say hello to you, and the last one who will enter in is Farena. The others decided that they wanted her to go last, ☺ for she is very, very difficult to, you know, come after. And when she has finished with what she and Barjan will be ~ Barjan, you know, does not know yet what it is that Farena has planned, at least at conscious level. They have been rehearsing at another level to be able to provide lightness in this gathering. Once Farena has finished, I will return for closing remarks, if you will, and the conclusion of our time with you in this session.*

*So, we will begin. Each who enter in have decided what they will say to you, and in the interest of what you call time on the plane, they will simply greet you and will not take questions at this time. Farena will take limited questions, as it is appropriate to what she presents to you in this happiness gathering. Now. We shall return, then. We are ever vigilant. And as you greet each in The Company, we give you an energy of lightness and an energy of love. We shall return momentarily, as it is measured in our dimension.*

### **Francis Comes In With His Greeting**

*Francis: I am known as Francis. I am most pleased to be here. My service is to be of assistance to The Animal Kingdom and to help all in all kingdoms to cherish and to protect those energies that have come into The Animal Kingdom for the lessons that need to be learned by entry into The Animal Kingdom. We provide guidance if you come to us in your meditation and ask Francis for guidance and for an understanding of that which occurs in The Animal Kingdom. We send an energy that transcends all of the kingdoms, so that there may be an understanding of that path taken when the choice of a particular kingdom is made. Farewell.*

### **Susan Comes In With Her Greeting**

*Susan: I am Susan. My path is to Be of Service in Group Balancing, and you certainly all need that! Each energy who enters onto the earth plane does not enter alone, but enters as part of a group, for lessons to be learned are always part of groups. And, be the group small or be the group large, we are here to Be of Service in the working of the issues that you find yourselves confronted by. We are represented by the color blue, and we send to you an energy to take with*

*you from this gathering for your next group balance. Think of it as a coupon. ☺ Fifty percent off! Call upon us in your meditations. Farewell.*

### **Jenjura Comes In With His Greeting**

*Jenjura: I am known as Jenjura. They call me the Librarian. They pick on me, ☺ for I am the one who researches many of the questions that are posed so that the answers can be given in a way appropriate to earth plane training ground understanding. I am of service to Waith and The Company as they provide answers to your questions. I am also available to each of you. I am called the recluse of The Company, for I am in The Universal Consciousness records to seek out the answers as you would request. It is a pleasure to be out and about.*

*When a question is asked from any of you, it is not as easy to answer as you might think, for there is what is referred to as the Webbing Effect, for all energy is interconnected, and to find the exact answer to a question can be a bit of a challenge working through the webbing, but that is our challenge. That is our service. We are here for you. Call upon us in your meditations. I have an energy to send to you. This is an energy to be called upon as you seek to know what is the right question to ask. The right question to ask will then give you the quality of response that is needed from your soul to continue upon the path. Farewell.*

### **Bathusela Comes In With Her Greeting**

*Bathusela: I am Bathusela. You are all so beautiful. I am here to help in the balance between male and female. And I have a particular mission to help the female, not necessarily in the female encasement, but the female energy. Most often, you would recognize my energy by the color of pink, and that was chosen most appropriately because of the emphasis on the earth plane color and gender identification. We help to exaggerate that which must not be exaggerated, for gender is simply an encasement for energy and necessary for lessons to be learned.*

*I have worked with Waith for as long as it has been. You may all call upon me when issues of gender overwhelm you and you need to feel a sense of peace and understanding. We love you. We send to you an energy of pinkness. Before this day on the earth plane is completed, each of you will have a symbol presented to you of the pinkness, and there will be at that moment an instant awareness of The Oneness of Energy. It will be very momentary, but it will give you a renewed sense of Oneness and the love that comes from oneness. Farewell.*

### **Jacques Comes In With His Greeting**

*Jacques: I am Jacques. I am the healer, so called. Much credit is given to we who heal, when the credit goes to each of you. We simply facilitate. We are here to help in Self-healing. We are able, and we have given techniques and formulas that will aid each of you on your path toward Self-*

*healing. What we give does not heal, but is simply a tool toward that which you would use for your own healing. We work closely with Susan in Group Balancing, for we are concerned with individual healing, which works in harmony with group healing.*

*You may call upon us in your meditations for guidance in the issues relating to not only the physical healing, but the emotional healing and the spirit healing. And you may call upon us to help reach your soul through your Higher Self. Visualize the color green. We send to you all an energy that goes to that which is the Heart Energy Center. Take from this energy the love and wrap this around the Heart Energy Center, for love of Self brings healing of Self. Farewell.*

**Farena Comes In With Her Greeting ~ Self Beauty ~ Harmony**  
**(June 13, 1993)**

*Farena: Hi! ☺ I am Farena! This is Barjan! Hello, everyone! We have a little surprise. Before we begin, I am just so happy to be with all of you. Now. We are going to do some wonderful things. The most important, important lesson is to stay happy and lighthearted, in spite of all that goes on in this training ground. It is all an illusion! It is all a game. It is all playtime. But it is very easy to forget. So, we have some little reminders.*

*Our dear one here was very nice and passed around to each of you the dissemination of what we call SELF BEAUTY. (An excerpt from a session on April 7, 1992 when Farena gave out Harmony Baskets and talked about Self Beauty) And we give this to a whole group of people, and not only human energies, but crystals, and plants, and air, and the sun, and this is a way of bringing beauty into the Soul. And we want to demonstrate with this large grouping, but since there are so many of you, we have a small gift. I would like you, right there, to form a circle, and you (Farena addresses a tall man in the group) to climb up there. You, come. (He reaches up and brings down a basket containing copies of Farena's poem, HARMONY)*

*Now. Barjan will play the background music. Now. You take this, and it is the beginning of an energy basket which will have been, after we have finished, a HARMONY BASKET. And now we begin. (The music starts)*

(Phrases are repeated as given by Farena)

- *Each of you say ~ I am beautiful.*
- *Again ~ I am beautiful.*
- *One more time ~ I am beautiful.*
- *The male encasement ~ I am beautiful.*
- *And the female encasements ~ I am beautiful.*
- *All together again ~ I am beautiful.*

- *Now, take your hands and cross them so that the tips of your fingers rest on your shoulders and the intersection is at the Heart Center, and say ~ I am beautiful.*
- *Again ~ I am beautiful.*
- *And now, look to the energy on your right and say ~ You are beautiful.*
- *And now, to the left ~ You are beautiful.*
- *To the right again ~ You are beautiful.*
- *And to the left again ~ You are beautiful.*
- *Say ~ We are all beautiful.*
- *Take your hand and hold the hand from each side and sway as you sit to the music and say ~ We are beautiful.*
- *Again ~ We are beautiful.*
- *And now ~ All is beautiful.*
- *And now ~ I am beautiful.*
- *Again, ~ I am beautiful.*

*And now, I give you the energy of beauty. (Farena walks around with the basket so that each person can take a copy of her poem, Harmony) Say the word, harmony. And now, all of you can read my poem on HARMONY.*

### ***HARMONY***

*Harmony means to be happy  
 Harmony means to be free  
 Harmony means that we have let go  
 Harmony means we are love  
 Harmony means we can hug  
 Harmony means we can fluff!  
 Harmony means we are balanced  
 Harmony means we can laugh  
 Harmony means we can fluff our aura  
 Harmony means we can play  
 Harmony means we can swish because we have learned our lessons  
 We have passed the test, and we can dance  
 Harmony means that we touch another with our love  
 Harmony means we take the sense of Self from the heart center and we send it out  
 Harmony means tiptoe, tiptoe and say hello  
 Harmony is freedom!*

*Harmony is balance  
Harmony is development of our wings  
They become bigger and bigger and send out love  
Harmony is achievable by all  
You simply have to let go  
That is how we learn lessons  
We let go.*

*Waith has told me it is time to go. We love you. Remember that when you see fluffy purple, fluffy anything, it is Farena. And I do ~ sometimes I am able to project an aroma and you will know that I am there with you. Waith is telling me I have to go. Bye.*

### **The Others In The Company Come In And Introduce Themselves And Answer Questions**

*We bring to you all the very Highest of the White Light. We are very pleased to have such a bouncy gathering of energies. As we entered in, we were aware of more Lightheartedness than is sometimes evident. And knowing, of course, that the earth plane activities can bring your energies down, we do attempt to fluff you up at times. And you are rather fluffy already, which is actually quite appropriate, for we digress a bit from what we were planning to discuss with you all this evening. Some of the others in The Company will come in and speak with you, for it has been a while. Many who are gathered in this session have heard of some of the others in The Company but have not actually met them. And they will be available to ask questions, if you so desire, of them.*

*And thus, we will give over the session, so to speak, to the others. And there may be some exchange with several of them simultaneously. For those of you who are unfamiliar with the abilities that we have in working through Mushiba, there is no need for a waiting of time, as you know it, between each entity who speaks. Rather, they would pop in and out, as you would refer to it, and be able to carry on a conversation among themselves with any of you who may ask a question.*

*We have our front act who usually comes in first to begin the frivolity, shall we say. And do not hesitate to ask, those of you who have not met the others in The Company, of their mission. They each have a very specific mission as part of Waith and Company and usually perform that mission in the spiritual realm rather than in the physical realm, though they have been known to manifest and to also give very concrete symbols of their presence when they are called upon. So, we will return at the end of this and give some final discussions and the final blessing as we depart. So, enjoy.*

### **Farena Comes In Briefly With A Greeting**

(October 18, 1994)

*Farena: Hello o o. I am Farena. Hi. This is hi. Hi. Hi. Hi. Now, I have sufficiently agitated the energy. I have a poem for you all. I am known for my poems. Okay. Now, here is my poem. This is to help make you happy and lighten you, for that is my primary function, to help bring Lightheartedness into all of your lives, and sparkly, fluffy, wonderful, wonderful Light. So, here is my poem.*

*Fluff, by Farena. It is very good to take a ball of fluff and place it in your hand and hold it to your heart, for that fluff can then spread and make you very happy. The end.*

Awe. 😊

*Farena: Poems do not have to rhyme. 😊 Well, I just came in to introduce myself and if anybody has any questions for me, I will be very happy to answer them. If not, some of the others will come in.*

Purple slippers.

*Farena: Purple slippers. They are there. They have little eyes on them. Little Eyes. No, no ears, just little eyes. All right. I am going to go. And if you want me back during this time, you can. You can ask. Bye. Love.*

Francis Comes In With Questions Regarding The Animal Kingdom And The New Illusion

(October 18, 1994)

*Francis: I am known as Francis. My nickname has become Frank, as they have attempted to lighten my energies. My primary responsibilities concern The Animal Kingdom and the attempts to help in the balancing within The Animal Kingdom that all the other energies have as issues. And as The Shift approaches, it will become very, very critical that the issues of balance with The Animal Kingdom are maintained. Would there be any questions from any of you to us regarding The Animal Kingdom?*

Would there have to be a migration of animals before The Shift so that they can be in the proper climate for themselves?

*Francis: There will be what you would call a migration of The Animal Kingdom in very similar ways that will occur with the other kingdoms, The Human Kingdom included, that brings entities into the proper positioning of the earth plane physical so as to be able to acclimate to the new vibrational configurations of a particular location. The animals will also, however, have very*

*large numbers of departures at the time of The Shifting as they realign in their own energy strengthenings for The New Illusion. There is much that has not been given for information until now regarding the effect of The Animal Kingdom in relation to The Shifting. It is now time on the earth plane to begin giving through that information in a more concerted effort. There will be much more substantial information given during the coming two earth plane years.*

**Does the animal have the same pivotal points around the earth shift than human beings, or are they completely different?**

*Francis: The pivotal points to which you refer are those energy connectors that keep the illusion intact and keep the vibration of the plane as it needs to be, and therefore, is in control for all who are on the plane regardless of the kingdom in which they find themselves. So, yes, The Animal Kingdom is considered part of that pivotal configuration and the new alignment of the pivotal points.*

**There will be many animal species actually disappear, and there will be new animal species after The Shift?**

*Francis: You would refer to them, yes, as species. They will have different encasements, and will bring in different types of vibrational heritages from one generation to the next that will be different from what this illusion currently is manifesting. However, it has already begun, and it will not be something that suddenly there are all of these new, what you call, species. There will be a gradual development of that. And when moving into the new vibration, it will be quite some earth plane time before all of the so-called species have appeared. It would be several hundred earth plane years before all of the species have made their imprint, if you will. They have already begun to appear.*

**Will there be a balance of nature?**

*Francis: Yes, indeed. The balance of nature, as you call it, is all that inhabits the earth plane. All of the kingdoms are considered nature. And this is, of course, one of the fallacies of The Human Kingdom that they live by, that there is The Human Kingdom, and everything else, and that The Human Kingdom is somehow superior to everything else. The reality of all of this on the earth plane is that, what you call nature, is all the kingdoms. It is a circle. There is no kingdom better than the other, and so that the balance of nature is what is occurring now and all are involved in it.*

*The Animal Kingdom will be a very critical component, however, in some of the major balancing issues. The abuse of The Animal Kingdom has reached a very significant point on the earth plane. With all illusions, certain kingdoms take on the role of being abused more than others so as to learn those lessons and to teach lessons to those who would abuse. For this particular illusion in which you find yourselves, it is The Animal Kingdom. And it has been true from the beginning of*

*the illusion ten thousand earth plane years ago that animals were the subject of abuse by, especially, The Human Kingdom.*

*We would tell you, however, that in other illusions it has been the other situation in which the animals have abused The Human Kingdom. If that sounds much like what you call your science fiction, understand that information such as those stories that you hear from other's so-called imagination is information that comes from higher sources that provide insight into that which was and that which will be again, for all returns to its origin, and The Cycle is completed. It takes several illusions, of course, to do that and approximately one million earth plane years for the series of illusions to come to completion and The Circle is complete. It then begins again, and again and again.*

**Do animals that we bring into our home understand our feelings and our moods?**

*Francis: Most of them do. The Animal Kingdom has a particular ability, as a kingdom of energy, to be attuned to energies of The Human Kingdom especially, although other kingdoms do have that same type of response with The Animal Kingdom. What you would understand, of course, is that just as each of you in The Human Kingdom is on a path of development in your understandings and your awarenesses of other energies, so too do those in The Animal Kingdom move along their path in understanding those in The Human Kingdom. They would come into your vibration to share your living space, for example, to help, and to serve, and to serve as friends and companions, and also to learn from The Human Kingdom. Not all, however, who would come into your vibration would have that sensitivity, and rather, would be choosing a particular human, for example, to help them in developing that ability. But for most of the situations you will find at this point in the illusion, and that is an important idea to remember, most of those in The Animal Kingdom are rather finely attuned to The Human Kingdom sensitivities.*

*In The New Illusion, there will be very different interactions between The Animal Kingdom and The Human Kingdom, and that type of interaction is subject for discussion within these next two earth plane years, as we now are in the position and have been given the go ahead, shall you say, to give more concrete information about The New Illusion. And it will begin. It begins now actually.*

**Waith has commented that in The New Illusion about the decline in the eating of animal, or flesh. Does that mean then that the farm animals will be declining? I mean, cattle and pigs and things like this will not be in common usage anymore?**

*Francis: We will be discussing those topics during the next two earth plane years in a way that will bring a sense of understanding to the total discussion rather than to now simply respond in isolation to that particular question. We would show it in relationship to other changes that will occur. So, we would place that particular question on hold for now. We now will allow one of*

*the others in The Company to come in and greet you, and we wish you all on the earth plane language our love and heartfelt best.*

**Bathusela Comes In With Conversation Concerning Gender Issues Now And In The New Illusion  
(October 18, 1994)**

*Bathusela: My name is Bathusela. It has been quite some time since I have been in such a beautiful gathering. And the beauty of this gathering is in the balance of the male and the female. Our mission is to help those especially who have taken on the female encasements, to help in the balance with the male, and to help in the understandings for each. For while you may be in a particular encasement, that is one gender or another, your dominant energy may be just the opposite. And so, the male genders and dominant energies may actually be in female encasements. And female dominant energies, or gender, may be in male encasements.*

*And thus, when we say that we are here to help the female in the balancing with the male, we oftentimes will not tell you who is who, for some of you may not know. You may not have the sense of your dominant energy, and that is very critical in your own balancing and in your own lessons. There is much to balance between the human male and the human female. And it is a continuous situation from illusion to illusion. It forms the very basis of our separation from The Universal Consciousness. We divide into separate, but ONE, dimensions of energy, each taking on different components of the total balance, and creating an imbalance so that the balance can eventually become One again, for only in the imbalance can balance be assured.*

*Would there be any questions relating to the wonderful war of the genders? ☺*

**Who's going to win? ☺**

*Bathusela: Eventually, your total energy wins. If you think of it in that way, you will be much happier. You will be able to balance with those of the opposite when you find yourself in conflict, and to know that it is meant for balance. The conflict is not really conflict but that which you perceive as disagreement. In actuality, it is imprinting, for as you face another from the other gender, you are working toward absorption of the energies of opposite. It brings ultimate harmony, for as you are able to understand the opposite, you are better able to understand Self.*

*And there are no good guys and bad guys, as you would call it, but rather, the harmony. And we understand that at times it is difficult to keep that in mind, that you are harmonious, for in relationships, you come together for harmony. If there is disharmony, you must step back from it and not be encompassed by it in its illusion on the earth plane. But rather, to view it as the way in which to reach a balance of sensitivity and understanding to those of the opposite.*

*The male and the female are essential in all of the kingdoms. The gender difference exists in all of the kingdoms, in all of the illusions, in all of the training grounds, in all activity that occurs outside of The One. It is not simply a mean trick that was played on you when you came onto the earth plane. The way in which you take on a gender is directly proportionate to the types of issues that you are learning and you are teaching.*

*Many of you gathered here in this session are dominant energies in an opposite encasement. It is a very common choice, for this time on the earth plane, to experience the earth plane life of the opposite gender to which your dominant gender relates. That can be rather disconcerting, can it not, for many? We hear so much about the manly man. Yes, is that correct? The manly man? Is that what you refer to? Yes. That is a bit of humor, for there are many who have taken on very strong male encasements whose dominant energy is female. And many who have taken on what you call a very feminine encasement whose dominant energy is male. One is not better than the other, contrary to what each gender may think. There is equality. The only difference is in the assignment that has been given to each of the genders for work to be completed to return to The One.*

*When you have issues relating to those relationships that you form, we are here to be called upon. Our color is represented by that which is pink. We chose that earth plane representation of female, in the culture in which you find yourselves living now, for very specific reasons. It is to give emphasis to the issues that relate more to the female balancing with the male. We have stated this on record, that contrary to popular belief, it is the female gender at this point in the illusion that needs to balance with the male gender, and not the other way around. And because of that, it has taken on very interesting symbolism and very interesting manifestations at physical. So, visualize the color pink in your meditations and we will give you guidance if you ask us.*

**In The New Illusion, will there be less of a distinction between male and female gender, because we are experiencing great movements towards same sex love right now, and this seems to show a trend towards a new orientation of genders.**

*Bathusela: There will be a very different gender identification in The New Illusion. Waith has indicated that it will be part of the discussions in the next two earth plane years in which preparations will be given for life in The New Illusion. The issue of gender and its accompanying orientations for physical relationships will be addressed in quite a bit of detail by Waith.*

*The discussions of what you refer to as sexual orientation will be given by Waith, for there is much change. And you must be careful in making assumptions about The New Illusion and the gender identities based upon what you now observe in the ending of this illusion. What you see in the ending of this illusion, currently, is an exaggeration to bring out the issues of extreme judgement that is evident at this time on the earth plane and the very extreme emotions that judgement brings about. And that will all be addressed, those issues as well as others, in the next two earth plane years. It is time for us to leave and allow one of the others to come in now.*

## Jenjura Comes In With Guidance On How One Can Find Their Answers (October 18, 1994)

*Jenjura: I am known as Jenjura. I make very rare appearances, for I am considered the Librarian in the group and they keep me in the stacks, so to speak, researching. As you ask questions and Waith needs to translate that into a frame of reference, I am the one who is given that sometimes very dubious job of connecting frames of reference. When you ask questions, you ask it from your own frame of reference. And even though Waith has a great deal of knowledge, understanding a frame of reference sometimes can be rather difficult.*

*Part of my training and the lessons that I learn now, involve how quick a response I can give when asked. I learn this now much more rapidly than when we first began speaking through Mushiba, for we receive so many different frames of reference now who come into these gatherings. We are very pleased at this for it gives us that opportunity to research the records. And we generally look at the source of information that we have, as you would refer to this computer system that you have currently on the plane, primitive as it is, as a resource for information. We are also available to come into your meditations. If you have a question, we could answer that question for you if you ask us. We could seek out information from the higher levels of your own soul and bring that back into your meditations through the Higher Self. We have that ability now. We have been in training for that also.*

*Essentially, however, we do not speak in public gatherings, though the others in The Company have been working on me now that they have finished with Frank, ☺ to lighten up my energies and to give me a sense of comfort in speaking before so many energies.*

**How may we call upon your services in our meditations?**

*Jenjura: We are represented by the color yellow. And yellow is a brightness, an illumination color. That is why it was chosen. You could visualize the color yellow and then simply say, "Jenjura," and call the name, for we must hear the call before we can respond. And we would then attempt to come into your meditation.*

*We are not always able to come into a vibration, for there may be blockages that come from an energy who is attempting to communicate with us. And if you find that you have called upon us and have not felt that we have responded, then keep trying, and relax in your attempts to reach us. And if you find that it is becoming even more difficult to reach us, as you try over and over again, then you could bring that issue into a Public Session and ask Waith. That would bring about discussion as to how others may also be having difficulty in reaching us and how to overcome that difficulty.*

Would we hear your voice in our head, or is it more of a knowing when we ask questions of you?

*Jenjura: It could be both of those situations, or it could be one or the other. Generally, you would simply feel. You would have a sense that we had connected. For some, we would physically give the sound of the voice, for there may be a need to have that as a concrete sign that there has been a connection. So, it would depend upon your own connections within your own meditation.*

Are there any other energies out there that you can call on besides the ones that you are showing now?

*Jenjura: You have unlimited access. You have your own Angelic Protector. You have any number of Spirit Guides. You have specific energies such as those of us working with Waith. You have others that may be indicated to you if you speak with others from other dimensions. Or you simply, in working with your Angelic Protector and your guides, ask if there is any other energy who would be out there to help. But always remember that in asking for help from those energies that have not been defined for you as for you, that you surround yourself with much protective Light. The mischievous entities, and those of the dark, and very strong forces of the dark, look for any opportunity to present themselves as helpers. And if you feel any doubt that information you are receiving from another source is not of the Light, simply challenge it. Say, "Prove you are of the Light." The dark cannot prove it and they will disappear immediately. They will go away. If they of the Light, they will remain and you will feel the Light of it.*

Are you suggesting that we should not go to find these guides on our own, that it would be best to go to somebody like yourself or the other company to find out who our guides are?

*Jenjura: No, not at all. What we are saying is that you must be careful in your selections. It is actually very important that you seek out on your own, selections of those who would help you. It enables you to distinguish between the Light and the dark as it relates to your own energy, so that you will be guided in a Light-filled manner.*

*We are here to serve as guides. We are here, if you ask us, to help you along your way and perhaps get you going, shall we say, in your quest for other energies to assist you. We could connect you with a particular energy, for example, and show you that this is an example of what we speak. And then, it would be very appropriate to apply what you have learned then, and seek out on your own. Ultimately, it is the seeking of the answers within that give you the truth as it is for Self and not as it is defined by another. And this is our message from all of us, that Waith continuously emphasizes, that we are here only as guides. We are not here to tell you the truth, for you only know the truth as it comes from Self.*

*We will now leave so as to allow the final two in The Company to come in.*

## Susan Comes In With Conversation On Group Balancing (October 18, 1994)

*Susan: Susan is my name. My primary purpose is Group Balancing. Have I not taken on quite a job? ☺ When groups of entities gather at any point in earth plane time, it is not random. It is by design, for whatever lessons need to be learned, even if it is for a very, what you call, infinitesimal point in earth plane time. All of you gathered in this session, now, have gathered to either reconnect or to make new connections very specifically with other energies here. Some of you may not see, at the earth plane level, another in this gathering again on the earth plane in this lifetime. But you will have made the energy connection. Many of you have gathered very purposely, for long lengths of time, for balancing as a group. The groups take on many, many different facets ~ family, friends, workers, many different groupings.*

*We work to help in the issues relating to many entities coming together for a specific mission, for in all groups they gather for a particular reason. Each of the group members has their own path and their own spiritual walk that always remains, but each also comes together for a particular reason. And when groups of entities depart at the same time, it is for lessons to be learned or lessons to be taught, but it is not random. When you see mass departures on the earth plane ~ especially now as the illusion comes to its closure, you will see large numbers of mass departures. They are all going together for a reason. It is no one's business what that reason is.*

*We have chosen the color blue as our representation, a soothing color that spreads over a group. We work in harmony with the final member of our company who will now speak to you, for our time grows short, as you would say, on the plane. As you are able to call upon the others in The Company, as they have indicated, so too can you call upon us, and to call the name Susan.*

## Jacques Comes In And Discusses His Mission Within The Company Of Self-Healing (October 18, 1994)

*Jacques: I am Jacques. I am here for healing of Self. Susie and I work together. ☺ My color is green. I am the one who has in the past given out remedies for individual healing. They are in the transcripts and will be available soon for many to read and to use. During the coming two earth plane years, as part of Waith's discussions of Earth Changes and movement into The New Illusion, we will be giving very specific types of techniques to bring about vibrational changes. We have agreed to work with (Name given) in vibrational adjustments, as he will be able to show you the technique from a very concrete manner.*

*You may call upon us and we will Be of Service. We will be entering into the Public Sessions much more frequently now. And we must hastily depart now since Frank took up most of the time. ☺ He was one of the shy ones and we worked with him to overcome his shyness, and what*

*happened? He just took right over. We send you a vibration of healing of Self. And you will hear more from us. Farewell to all of you.*

*Waith: Well, now, did you enjoy meeting and feeling the vibration of the others? We will be giving very specific and very concrete information from now through, essentially, The Shifting of the axis. And the time on the earth plane has now come when all those who are speaking from other dimensions to the various audiences have been given the cue, if you will, to begin giving that information to their audiences, be they what they are. We will, now, respond in concrete ways to questions that we have been vague about in the past, for we had been directed to be vague. Now we reach the time where there is concrete preparation that we will give to you.*

*And from the Community of Terra Lux, the ways in which our information can be implemented, will be provided. It is part of their mission, to Be of Service to all who would come to learn how to increase their vibration. We speak of vibrational increases as a way of attuning to the new vibration of the earth plane. We have purposely been vague in that respect until the time was right and we were given our cue. And once we were given our cue, we have given cues to others.*

*You will be hearing more of the interpretation component of our information as we give direction to those who would guide you in the interpretation. We have much information to give to you in the coming two earth plane years, specifically. We caution you to interpret that The Shift is going to occur in two years. It is not. We would say that right now. There is more than two years. "Darn," she said. I heard that. There is more than two years. But these next two earth plane years are very specific preparation time frames.*

### **Waith Announces Some Changes Within The Spirit Group Of The Company (September 05, 1995)**

*What has occurred is that Susan and Bathusela will no longer be speaking through. They go into a different phase now of the mission, and will not be speaking through Mushiba any longer. They have been replaced, and you will meet their replacements in this session. Their replacements will tell you a little bit about themselves.*

*The role that Susan and Bathusela had in the mission remains the same with the two new energies. Susan's role was Group Balancing. That mission will remain the same. Bathusela's role has been expanded. It was initially for female energy alignments and understanding. It has now been enlarged to include all gender issues, for in The New Illusion, gender issues will be quite different than currently in this illusion. So, we will now have the two introduce themselves to you, and they will speak for a bit of time, and then we will return. So, enjoy the two who now join Waith and Company, and welcome them in their mission. One of them was recruited specifically by Farena. You can figure that one out for yourself. ☺*

## Boopsie, Bathusela's Replacement, Comes In To Speak And Introduce Herself (September 05, 1995)

*Boopsie: Hello, I am Bathusela's replacement. My name is Boopsie. My color remains pink. However, it is a different shade of pink. We have not revealed that shade as yet, for it also has gender implications for The New Illusion. It is a New Illusion Pink. We will give a formula, as you call it, that will bring about the color pink. Boopsie is my name.*

*I understand I have a puppy at my disposal. You would help, loved one. Thank you. (Help is given with the microphone wire) I would enjoy now to move through and feel the energy. It is important for me now to understand this concept of dominant gender energy in the opposite encasement. This is a very interesting concept that applies to very few training grounds, the earth plane being one of those training grounds. I simply now will go through to get a feel for the crowd, as you would say, to determine if I am able to do this. And if I am not, then I will have to learn. We all have things to learn.*

*(Boopsie moves through the gathering of people) Ah, yes, indeed. Yes, yes. You are a very dominant male, ☺ and from what we can gather, a very fluffy female encasement. Indeed. Very interesting. Very, very interesting. Very female. Very female all the way around. Yes, my love. Puppy! Puppy hides her gender. ☺ Female, and very male in the encasement ~ Mm-m. Oh my goodness, yes, this is most interesting. Thank you, my love. We would go through this energy opening. Yes, most interesting. Would you have a question?*

**Could you tell us a little more about yourself, Boopsie? How long have you been in The Company actually?**

*Boopsie: I have been in The Company in a training mode. I had my training wings, if you will, for perhaps what you would call ten to twelve sessions ~ these gatherings that you have. I come from a realm that has involved Guide School, and have been in the Guide School training realm for quite some time. I have finished my time on the earth plane as a training ground. I have done my hard labor.*

*I understand being on the earth plane, and I bring into this mission an understanding of recent experience of gender identity, and gender issues as they relate to the earth plane. I have done the dominant gender in different encasement scenario, and all of the sexual implications, and all of the issues of gender and sexuality. In Guide School now, I am involved in advanced training of gender, as it relates specifically to the earth plane. I have taken a specific course of study, and it is that, that I bring into the mission of Waith and Company.*

**What are the new issues that will be brought after The Shift regarding gender?**

*Boopsie: Oh, that is for a very interesting discussion. We have much time, as you measure on the plane, to talk of this. The predominant accepted relationship is male and female, and the abnormal is same gender. That all switches. Is that enough of a teaser?*

**So, you will probably be doing some spiritual counseling in that?**

*Boopsie: Oh, yes. We will be having much through Waith where this issue is concerned. The ability to meditate, and reach the Higher Self must be the groundwork first. And in this coming year, as Waith has described, as part of the meditation, gender issues will be very much an integral part. We look forward to this. It is time now for us to bid farewell, and for Susan's replacement to enter in. We look forward to spending time with you in these gatherings. Farewell.*

### **Teetee, Susan's Replacement, Comes In To Speak And Introduce Herself (September 05, 1995)**

*Teetee: Hello, I am Susan's replacement. ☺ She is mine now. (Refers to the one helping with the microphone) My name ~ I will spell it for you T-e-e-t-e-e Teetee. Guess who recruited me? ☺*

*My mission is to assist in Group Balancing. I have taken the name of Teetee to bring humor and Lightheartedness into all the difficulties of Group Balancing. You become so serious about the balance of groupings. You know you are with others, and there is conflict, and there is harmony, and there is conflict, and there is harmony, and you take it so seriously. You can then begin to think of Teetee, and Teetee will bring Lightheartedness into your Group Balancing. My color remains blue. However, it is aqua blue, and not the green aqua, but the blue aqua ~ aquamarine. It will not be quite as elaborate as Boopsie's New Illusion Pink.*

*I come, also, from the realm of Guide School, and have been involved in the teaching of other Spirit Guides for their own work with their charges in Group Balancing. I teach how to recognize another as part of a Group Balance. I teach the guides how to communicate with you in recognizing Group Balancing, and how to work with it, and how to bring balance. We will be doing many sessions in the coming time frame on Group Balancing. There will be one special session in the Meditation Year devoted to Group Balancing techniques of meditation. Teetee is my name ~ Group Balance is my game. ☺ Would you have a question?*

**Do you have any tips on how to balance within a family grouping?**

*Teetee: Tips on how to balance within a family grouping ~ that would take an eternity. ☺ We will, however, give you some techniques to recognize, and to hear the communication that comes from your Spirit Guides on what to do. Recognizing what the balance is, is the most*

*important component. We are not here to give quick fixes. Waith does not give quick fixes. We are here to give you tools to guide you in your own search for the answers.*

*There is no entity on the earth plane who is not involved in a Group Balance of some sort, and a group only needs to have one other person in it, or one other energy ~ it could be an animal, it could be a mineral, it could be the plant that grows in your home as an energy. And perhaps the plant does not want to thrive, and it is because you balance from another time with this plant. Balance in groups occurs within kingdoms, and it occurs with all entities. So much for the tip. ☺ We are most pleased to be with you. We look forward to this. We enjoy the feel of your energy. And, we depart now. Farewell.*

### **Jenjura Comes In And Talks Of His Mission In The Company** **(February 06, 1996)**

*Jenjura: The standing position is preferred. (Jenjura stands up) We sit in our energy field, as you might refer to it, the sitting position. It is with great excitement that I am here to provide to you information. This is actually the first time that I have done this to any great extent, and I must admit to you that it is a new experience for me. I am most accustomed to the ability to provide information in a different dimension. This is new, to provide information in this dimension.*

*My trusty computer board, as you have your frame of reference, is not workable in this dimension. However, I am here to provide to you the knowledge and the insight of what I actually do and how easy it is for each of you to do what I do. The very basis of meditation, its very meaning, goes to the learning of Self. Only each of you are able to learn of Self. Others outside of Self are only able to have glimpses of who you are, that includes, my loved ones, your Concrete Self.*

### **How Does Jenjura Search Out Information From His Dimension?** **(February 06, 1996)**

**When you connect with the Universal Consciousness to search out information, how do you do it from your level? Is it just an instantaneous energy connection, or do you have to find your way around?**

*Jenjura: Sometimes it is quite easy, for that which is the connection to be made has already had a smooth pathway. But if it is an attempt to bring an energy form who has asked our help into the Universal Consciousness, then it means that we must smooth the way, and that does require more effort, for we must also work through the maze at the higher levels in order to bring it to the point of connection with the Universal Consciousness. Generally, once that has been done, it need not be done again. But that is not always the case. There can be difficulties encountered in the webbing effect that can bring energies back into a point before they were connected with the Universal Consciousness.*

*It is common knowledge on the earth plane that all are part of The One, and that each of you can connect at any time with the Universal Consciousness. However, it is not easily achieved. It is achievable by all, but many do not want to go through the effort required, for it means constant vigilance at all levels of your energy, and this can be very difficult.*

### Questions Of The Personal Life Of Francis Of Assisi (March 19, 1996)

**You mentioned when you were here last as Francis of Assisi ~ and the use of community in that life ~ how did the establishing of ~** (The person is having difficulty framing the question to be asked)

*Francis: She can do it. She can do it.*

**I realized that I had started to ask you a question that might be a personal question about your path, and that is what stopped me. I had it in my mind, and then I thought it would not be appropriate. So, forget it. I was going to ask you, what was the purpose of that life with the establishing of the community?**

*Francis: When I figure that out, I will let you know.*

**Your name was brought up so many times in an article I just read. This was someone who gave a lecture. They said that during Vatican II, much of what you had done during your last life, which they thought was your only life, and was used in Vatican II. Is that the truth?**

*Francis: Sounds good. Could be.*

**Well, you were mentioned many, many times.**

*Francis: Well, you see then, there is hope for everyone that you too could be mentioned in another illusion for all of the works that you have done. You know, you never know what it is you are going to be leaving behind you as a result of your journey. Do not focus on what it is you are leaving behind you, but understand that you do leave behind something. Many of you do things now that will very definitely be for another time to be understood. That which Waith and all of us do in this mission, we know is for a longer view. It is to be for a later time. We plant the seeds now.*

*We planted seeds in that lifetime, my love. Whatever it is that came from those seeds was the result of community effort ~ was not just one entity. I was not solely responsible. None of us can work in isolation. We all need help from others, be they people or any other kingdom. It cannot*

*happen alone. It is impossible. So, perhaps, you have answered our dear one's question. See, we are not needed here.*

Things just seem to pop up!

*Francis: Poppy seeds. No! Wrong plant. Though a very good one for altered awarenesses. Yes, indeed. We utilized the poppy in our mission back then.*

Did you?

*Francis: Indeed.*

Got a little high?

*Francis: Gets you through an earth plane day! ☺ We are not that far removed from the earth plane experience, especially since our last mission was one of great intensity. Remember that the planet supplies you with the tools you need for survival, and it is each who determines what they need to survive, not what another would tell you to use for survival. And it is the ultimate in the community formation of your own life that determines what you use for survival.*

Ten minutes.

*Francis: Thank you. That is the cue that Waith indicated to me would be for me to depart so that he could enter back in. We will be entering more often than in the past. We will give you other hints, techniques for community development. Be joyful of community. You are stuck with it, so do something with it! ☺*

*We send you all now a cohesiveness of energy. At the end of this session when you prepare to move about, return the member of the community to where you found it, thus respecting its place within this environment. Farewell, my loved ones.*

## Boopsie Answers Questions About Her Lives When She Was On The Earth Plane (October 01, 1996)

You mentioned in the beginning that you had recently completed lives on the earth plane ~ I think it was plural. Can you tell us how many lives and what the time frame was?

*Boopsie: How many lives and when were they. There were several lives ~ perhaps as you would understand it, five or six in a series ~ that was the ending of the lifetime. It was in the final time*

*frame of the beginning of the second half of this illusion. Do you understand? So, it was the final stages before the second half of this illusion began.*

**How long would the second half of the illusion be, roughly?**

*The second half has been approximately five thousand earth plane years. We had our series that came to completion at about that five-thousand-year mark ~ right before that. It was during a time when the transition was beginning, ever so slightly, and there was tremendous judgement on the plane.*

*By the time frame of half in an illusion, judgements, especially in all of the issues on the plane, begin to take on the exaggerated form. The first half of an illusion, they are building up to it ~ for the cleansing, of course, starts off fresh. You start The New Illusion fresh. It does not take long, however, for the issues to come back in different packaging. By the time midpoint is reached is when they begin to bubble, and by the time three to five hundred years is left in an illusion ~ sometimes one thousand years ~ the exaggeration begins to occur.*

*I had an interesting lifetime, for I am dominant female, as you would call it. Once returning out of the earth plane sojourn, there is no longer this definition of gender. But, for you to understand, I was female dominant. I am what you would call androgynous now, as is Waith ~ there is no gender. However, the appearance ~ I present myself as female dominant, for that was what I was on the earth plane. I was, what you might call, quite the hot number. ☺*

**Did you live the five lifetimes at once, or was it when one got over, then the next one became scripted?**

*Boopsie: There were two that were simultaneous. There was a lifeline that was sent out from my dominant energy, so that there was a simultaneous occurrence. So, that in actuality, sequentially, there were four or five, depending upon the frame of reference. Within that, however ~ the simultaneous lifetime ~ one was female in the female and the other was female in the male ~ meant to learn very specific lessons in issues of judgement.*

*During that time frame, what you know as witches were considered bad, as they are now. I was quite the witch ~ in both the simultaneous and the dominant ~ male witch, female witch. And, at exactly the same time frame ~ not the exact moment, but the same time frame ~ both lifetime's energies were burned because of activities.*

*They were difficult lives. They were lives of tremendous learning of lessons, for I was manifesting in a very arrogant way, which was what had been determined for the learning of lessons. I learned the lessons ~ I hope. Remember, that just when we think we have learned a lesson and become arrogant about it, The Universe will say, "Let's test that again."*

So, you do not want to be tested.

*Boopsie: That is correct.*

So, you have done that.

*Boopsie: We all have as energies, my son. That is nothing to be ashamed of. It is certainly not an indication of regression in the path or that you are bad. There is no such thing. It is simply that you have learned a lesson, hopefully.*

*So, we now will allow Waith to return and to give you his closing energies. We look forward to the meditation in the next time, and if any of you return for our next gathering and have questions of us ~ of what we have presented in this session ~ we would be most honored to answer. We send you harmony energy. Farewell.*
